The Institute of Museum and Library Services is the primary source of federal support for the nation's 123,000 libraries and 17,500 museums. Through grant making, policy development, and research, we help communities and individuals thrive through broad public access to knowledge, cultural heritage, and lifelong learning. To learn more about IMLS, please visit www.ims.gov.

I. Introduction

The Public Libraries Survey (PLS) is a voluntary survey conducted annually by the Institute of Museum and Library Services (IMLS). IMLS collects these data under the mandate in the Museum and Library Services Act of 2003 as stated in SEC. 210. The U.S. Census Bureau is the data collection agent for IMLS. The Fiscal Year (FY) 2010 survey is the 22nd in the series.

The data file includes all public libraries identified by state library agencies in the 50 States, the District of Columbia, and the outlying areas of Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands. The reporting unit for the survey is the *administrative entity*, defined as the agency that is legally established under local or state law to provide public library service to the population of a local jurisdiction. In this survey, the term public library means an administrative entity. The administrative entity may have a single outlet or multiple outlets (single- and multiple-outlet libraries that do not have a central outlet are listed in Appendix E). The data for a multiple-outlet library are combined. The survey questionnaire is in Appendix F--see item 203 in the Administrative Entity Data Element Definitions for the definition of a Federal State Cooperative System (FSCS) Public Library.

The FY 2010 PLS collected the following information:

- State characteristics data, including the reporting period starting and ending dates, the official state total population estimate, and the total unduplicated population of legal service areas for the state (see the survey questionnaire in Appendix F, items 100-103). Each state library agency reported these data on the “State Characteristics” record because they are not library-level data.
- Data on each public library, such as its name and address, population of legal service area, service outlets, collections, full-time-equivalent staff, and operating revenue and expenditures (see Appendix F, items 150-651). These data were reported on the “Administrative Entity” record.
- Data on each public library service outlet, such as its name and address, type, county location, metropolitan status, square footage, public service hours per year, and number of weeks a library is open (see Appendix F, items 700-714). These data were reported on the “Outlet” record.

Note: The Public Library Data File is available in two versions: a public-use data file (available to all users with some data suppressed) and a restricted-use data file. Data users should contact IMLS about obtaining access to the restricted-use data files. This document is the documentation for the public-use data file. See *Confidentiality and Public- and Restricted-Use Data Files* in the next section for more information.

Three public-use data files (see below) were generated from the FY 2010 PLS, in Microsoft Access and ASCII format¹. These are the final data files.

1. Public Library Data File (pupld10a.mdb and pupld10a.txt). This file (also known as the Administrative Entity file) includes a total of 9,308 records. This file includes data for 9,299 public libraries (9,241 public libraries in the 50 states, the District of Columbia, and 58 public libraries in the outlying areas of Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands). The remaining nine records are administrative entities that closed or temporarily closed for FY 2010 (STATSTRU, Structure Change Code, is ‘03’ or ‘23’). Records for public libraries that closed for the current year are included on the file for that year only. Each library’s data consist of one record. Appendix A contains the record layout.

¹The Microsoft Access data file has the .mdb extension and the ASCII data file has the .txt extension.

2. Public Library State Summary/State Characteristics Data File (pusum10a.mdb and pusum10a.txt). The data for each state or outlying area consist of one record (a total of 55 records are on the data file). Appendix B contains the record layout. No data are suppressed. The file includes:
 - a. State summary data. These are state (and outlying area) totals of the numeric data on the restricted-use Public Library Data File.
 - b. State characteristics data. These data consist of four items reported by each state (and outlying area) on a "state characteristics" record: the earliest reporting period starting date and the latest reporting period ending date for their public libraries, the state population estimate, and the total unduplicated population of legal service areas in the state.
3. Public Library Outlet Data File (puout10a.mdb and puout10a.txt). This file includes a total of 17,636 total records. This file includes identifying information and a few basic data items for 17,490 public library service outlets (central, branch, bookmobile, and books-by-mail-only outlets) (17,384 outlets in the 50 states and the District of Columbia and 106 outlets in the outlying areas). The remaining 146 records are outlets that closed or temporarily closed for FY 2010 (STATSTRU, Structure Change Code, is '03' or '23'). Beginning with the FY 2008 file, records for public libraries that closed for the current year are included on the file for that year only. The data for each outlet consist of one record. Appendix C contains the record layout. No data are suppressed.

II. User's Guide

II. A. Survey Methodology

Survey Universe

The PLS is designed as a universe survey. The survey frame consists of 9,299 public libraries (9,241 public libraries in the 50 states and the District of Columbia and 58 public libraries in the outlying areas of Guam, the Northern Mariana Islands, Puerto Rico, and the Virgin Islands), as identified by state library agencies. (Public libraries in one outlying area, American Samoa, are not included in the survey frame because their state library agency has never responded to the request for participation in the survey. Because their public libraries have not been identified, they are not included in the response rate calculations.) The survey frame (and the survey response rates in the next section) includes 290 public libraries that do not meet all the criteria in the FSCS Public Library Definition (see Appendix F, item 203 of the Administrative Entity definitions for the criteria). These libraries are included because they qualify as public libraries under state law. Military libraries that provide public library service and libraries that serve residents of institutions are not included.

Survey Response

Unit response. A total of 9,100 of the 9,299 public libraries in the survey frame responded to the FY 2010 PLS (including Guam and Puerto Rico), for a unit response rate of 97.9 percent. Respondents to the survey are defined as public libraries for which the following data were reported: population of the legal service area and at least three of the five following items: total paid employees, total operating revenue, total operating expenditures, print materials, and total circulation. (Note: Some individual survey items, such as population of legal service area, service outlets, and type of legal basis have a 100.0 percent response rate for their state because the state library agency provided these data for all public libraries in their state). See the table below for library unit response rates by geographic area.

Total response. The base for calculating response rates to individual survey items is the total number of libraries in the survey frame, including unit nonrespondents.

Data File and Publication Response Rates. The total response rates on the data file differ from the total response rates in the published report because the nonresponding outlying areas of the Northern Mariana Islands and the Virgin Islands are included on the data file but are not included in the publication. The responding outlying area of Guam is included in both the data file and the publication. The response rates for the outlying area of Guam are not included in the national totals in the publication. The responding outlying area of Puerto Rico is included in the data file but is excluded in the publication because response rates are very low and missing data are not imputed for outlying areas.

Library Unit Response Rates by Geographic Area

Geographic area	Respondents	Total units	Unit response rate
AK	90	90	100.0
AL	216	216	100.0

Caveats for Using these Data

The data include imputations, at the unit and item levels, for nonresponding libraries. See the *Imputation* section for a discussion of the imputation methodology. Comparisons to estimates prior to FY 1992 should be made with caution, as earlier estimates do not include imputations for nonresponse, and the percentage of libraries responding to a given item varied widely among the states.

State data comparisons should be made with caution because of differences in reporting periods (see Table A-1) and adherence to survey definitions. The definitions used by some states in collecting data from their public libraries may not be consistent with the PLS definitions.

The District of Columbia, while not a state, is included in this report. Special care should be used in comparing data for a city to state data. Caution should also be used in comparing Hawaii's data to other states as all public library data are reported under one entity, the Hawaii State Public Library System.

Reporting period. The FY 2010 PLS requested data for state fiscal year 2010. In some states, the FY reporting period varies among local jurisdictions (these states are listed in the *Other* column in Table A–1 below). However, each public library provided data for a 12-month period. Note: The FY starting date and ending date of *each* public library are included on the data file.

Table A–1. Reporting periods of public libraries: Fiscal Year 2010

July 2009 through June 2010	January 2010 through December 2010	Other ¹
Arizona	Arkansas	Alabama ²
California	Colorado	Alaska ³
Connecticut	Indiana	District of Columbia ²
Delaware	Kansas	Florida ²
Georgia	Louisiana	Idaho ²

¹⁰February 2009 to December 2010.

¹¹October 2008 to June 2010.

SOURCE: Institute of Museum and Library Services, Survey of Public Libraries in the United States, Fiscal Year 2010.

Survey Population Items

The PLS has three population items: (1) Population of Legal Service Area for each public library, (2) Total Unduplicated Population of Legal Service Areas for each state, and (3) State Total Population Estimate. The population data are provided by the state library agency. The methods of calculation of the first two items vary significantly among states, and the state reporting periods also vary. The Total Unduplicated Population of Legal Service Areas does not include unserved areas and may vary from data provided by sources using standard methodology (e.g., the Census Bureau).

The total Population of Legal Service Area for all public libraries in a state may exceed the state's Total Unduplicated Population of Legal Service Areas or the State Total Population Estimate. This happens in states where there are overlaps in population of legal service areas served by individual libraries, resulting in the same population being counted twice. Twenty-seven states had such overlapping service areas in FY 2010. (See Table A-2.)

Table A-2. States with public libraries with overlapping service areas: Fiscal Year 2010

Arkansas	Minnesota
Arizona	Mississippi
Colorado	Nebraska
Connecticut	New Hampshire
Florida	New Jersey
Idaho	New York
Indiana	Pennsylvania
Kansas	Rhode Island
Kentucky	South Dakota
Louisiana	Utah
Maine	Vermont
Massachusetts	Virginia
Maryland	Puerto Rico
Michigan	

SOURCE: Institute of Museum and Library Services, Survey of Public Libraries in the United States, Fiscal Year 2010.

To enable meaningful state comparisons using total Population of Legal Service Area data (for example, the number of print materials per capita), the Population of Legal Service Area data were adjusted to eliminate duplicative reporting due to overlapping service areas. The Public Library Data File includes a derived unduplicated population of legal service area figure for *each library* for this purpose (the variable is called POPU_UND). This value was prorated for each library by calculating the ratio of a library's Population of Legal Service Area to the state's total Population of Legal Service Area and applying the ratio to the state's Total Unduplicated Population of Legal Service Areas. (The latter item is a single, state-reported figure found on the Public Library State Summary/State Characteristics Data File; the variable is called POPU_UND on this file also.)

Confidentiality

Two separate laws cover the protection of the confidentiality of individually identifiable information collected by the Institute of Museum and Library Services - the Privacy Act of 1974 and the E-Government Act of 2002. The Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility, and Integrity of Information Disseminated by the Institute of Museum and Library Services are prepared under the Treasury and General Government Appropriations Act for Fiscal Year 2001, Section 515(b). IMLS

releases data to the public to use for statistical purposes only. Record matching or deductive disclosure by any user is prohibited. Procedures for disclosure avoidance were used in preparing public-use data files and tables of salary information for release.

Public- and Restricted-Use Data Files

The Public Library data file is available in two versions: public-use data (available to all data users with some data suppressed) and restricted-use data. Data users should contact IMLS about obtaining access to the restricted-use data files.

Public-use data. On the public-use Public Library data file, selected expenditures data (i.e., Salaries, Employee Benefits, Total Staff Expenditures, and Other Operating Expenditures) of public libraries have been removed (i.e., the field is blank) when their total full-time equivalent (FTE) staff is less than or equal to 2.00, to protect the confidentiality of respondents. These data may also be suppressed for other libraries to ensure that all states that have suppressed data have a minimum of three suppressed records. The library's Total Operating Expenditures and Other Expenditures Data are not affected by the suppression of these data. No data are suppressed on the public-use versions of the Public Library State Summary/State Characteristics Data File or Public Library Outlet Data File.

Restricted-use data. No data are suppressed on the restricted-use versions of the Public Library data file, Public Library State Summary/State Characteristics data file, or Public Library Outlet data file. The inclusion of all expenditures data irrespective of the number of FTE staff enables the identification of individual salary data for some libraries. Researchers requiring access to the restricted-use data must contact IMLS to obtain use of the data.

Data Collection

The FY 2010 PLS was released to the states over the Internet on December 8, 2010. States were placed into one of three reporting groups (with survey due dates of April 13, August 3, or August 24, 2011), based on their fiscal cycles or claim of extraordinary reporting hardship. States reported their data over the Internet via a web-based reporting system called WebPLUS (Web Public Library Universe System). WebPLUS was developed by the Census Bureau (the data collection agent). Edit follow-up was completed in November of 2011. The editing process is described below.

Editing

State level. The respondent generates an Edit Report following direct data entry or import of their data into WebPLUS. The Edit Report, which can be viewed on-screen or printed, is used to identify and correct any errors, and to confirm the accuracy of data that generated edit warnings but required no change, before submitting the final file to the Census Bureau. In the FY 2010 PLS, four types of edit checks were performed:

1. *Relational edit checks.* This is a data consistency check between related data elements. For example, an edit message is generated if the number of "ALA-MLS" Librarians (librarians with master's degrees from programs of library and information studies accredited by the American Library Association) is greater than "Total Librarians".
2. *Out-of-range edit checks.* This is a range check that compares the data reported for an item to the "acceptable range" of numeric values for the item. For example, an edit message is generated if average Public Service Hours per outlet per week is less than 11.16 or greater than 129.67, or if the current year/past year change in Children's Circulation is less than 0.30 or greater than 3.44.

3. *Arithmetic edit checks.* This is an arithmetical accuracy check of a reported total and its parts to the generated total. For example, an edit message is generated if Total Operating Revenue is not equal to the sum of its parts (Local Government Revenue, State Government Revenue, Federal Government Revenue, and Other Revenue).
4. *Blank, zero, or invalid data edit checks.* This is a check of reported data against acceptable values. For example, an edit message is generated if the Reporting Period Start Date is missing, or Print Materials is 0, or the Legal Basis Code is not a valid code.

The WebPLUS application generates state summary tables (showing state totals for all numeric data items) and single-library tables (showing data for individual public libraries in a state). State item response tables are also generated. Respondents were encouraged to review the tables for data quality issues before submitting their data to IMLS. State data submissions also included a signed form from the Chief Officer of the State Library Agency certifying the accuracy of the data.

National level. The Census Bureau and IMLS reviewed and edited the state data submissions, working closely with the PLS State Data Coordinators.

Imputation

Imputation is a procedure for estimating a value for a specific data item where the response is missing. This section describes the imputation methods that were used to fill in the missing data items for the FY 2010 survey year. A total of 51 items were imputed.

The responding and non-responding libraries were sorted into imputation cells based on OBE region code (Bureau of Economic Analysis region code, formerly Office of Business Economics) and the size of the population. Each state is assigned an OBE region code (e.g., 01- New England (CT ME MA NH RI VT)). The cumulative root frequency method was used to determine the imputation cells. For more information about the cumulative root frequency method, see Cochran, William. *Sampling Techniques*, 3rd edition. John Wiley & Sons, Inc. p. 129.

The imputation for non-responding libraries was performed using the data calculated from respondents in their imputation cells. Item imputation was performed on each record with nonresponsive variables. Following are descriptions of each imputation method used for the Public Libraries Survey (PLS).

Imputations were performed in two stages. In the first stage, imputations were carried out for nearly all missing values using the following methods: prior year times mean growth rate, adjusted cell mean, cell mean, prior year ratio, cell median ratio, direct substitution of prior year data, cell median, and special imputations. In the second stage, imputed values are adjusted for some missing values (based on the variable) using the following methods: obtained value by relationship of total to detail items, raking, special imputations, and consistency checks.

First Stage: Initial imputations

For each missing value, one of these methods of imputation was used to fill out the FY 2010 PLS dataset.

METHOD 1: Prior year multiplied by mean growth rate. The imputed value is equal to the prior year reported value for a nonrespondent times the cell mean growth rate. In this method, the prior year reported data can be as old as four years. The growth rate is calculated by the mean of the growth rates of all the respondents in an imputation cell of libraries with similar characteristics to the nonresponding library. The growth rate is based on libraries that responded in the current year and the prior year.

METHOD 2: Adjusted Cell Mean. The imputed value is equal to the mean of all the respondents in a cell for the item times an adjustment factor. The adjustment factor is the ratio of the library's Population of Legal Service Area to the cell mean Population of Legal Service Area.

METHOD 3: Cell mean. The imputed value is equal to the mean of all respondents in a cell for that item.

METHOD 4: Prior year ratio to another item. The imputed value for a missing item for a respondent is equal to the respondent's current year data for a highly correlated item times the ratio of prior year data for the item to be imputed to a prior year's data for the highly correlated item.

METHOD 5: Cell median ratio with another item. The imputed value for a missing item for a respondent is equal to the respondent's current year data for a highly correlated item times the cell median ratio. The cell median ratio is calculated by finding the median of all ratios of the item to be imputed to the highly correlated item for all respondents in the cell.

METHOD 6: Direct substitution of prior year data.

METHOD 7: Cell Median. The imputed value is equal to the median of all respondents in the cell for that item.

METHOD 8: Special impute for an item. The imputed value of an item is adjusted using its relationship with another reported item.

Group One:

A group of PLS variables was imputed using method 1 (prior year multiplied by mean growth rate); if prior year reported data were not available then method 2 (the adjusted cell mean) was used; if the adjusted cell mean could not be calculated then method 3 (the cell mean) was used. Variables in this first group include:

- **Librarians with Master's degrees from programs accredited by the ALA (MASTER)**
- **Total Librarians (LIBRARIA)**
- **All Other Paid Staff (OTHPAID)**
- **Local Government Revenue (LOGVGT)**
- **Total Operating Revenue (TOTINCM)**
- **Salaries & Wages Expenditures (SALARIES)**
- **Total Staff Expenditures (STAFFEXP)**
- **Other Materials Expenditures (OTHMATEX)**
- **Total Collection Expenditures (TOTEXPCO)**
- **Other Operating Expenditures (OTHOPEXP)**
- **Total Operating Expenditures (TOTOPEXP)**
- **Print Materials (BKVOL)**
- **Library Visits (VISITS)**
- **Total Circulation (TOTCIR)**
- **Total Attendance at Library Programs (TOTATTEN)**
- **Number of Registered Borrowers (REGBOR)**

Group Two:

A second group of variables was imputed using method 2 (adjusted cell mean); if the adjusted cell mean could not be calculated, then method 3 (the cell mean) was used. These variables include:

- **Total Capital Expenditures (CAPITAL)**
- **Databases (DATABASE)**
- **Current Print Serial Subscriptions (SUBSCRIP)**
- **Reference Transactions (REFERENC)**

Group Three:

A third group of variables was imputed using method 1 (prior year multiplied by mean growth rate); if prior year reported data were not available to calculate growth rates, then method 7 (cell median) was used. These variables include:

- **State Government Revenue (STGVT)**
- **Other Operating Revenue (OTHINCM)**
- **Local Government Capital Revenue (LCAP_REV)**
- **Total Capital Revenue (CAP_REV)**
- **Electronic Books (EBOOK)**
- **Other Databases (DB_OTH)**

Group Four:

A fourth group of variables was imputed using only method 7 (cell median); these variables were:

- **Federal Government Revenue (FEDGVT)**
- **State Government Capital Revenue (SCAP_REV)**
- **Federal Government Capital Revenue (FCAP_REV)**
- **Other Capital Revenue (OCAP_REV)**
- **Local Databases (DB_LOC)**

Group Five:

A fifth group of variables was imputed using method 4 (prior year ratio to another item); if nonzero prior year reported unit data were not available, then method 2 (adjusted cell mean) was used; if the adjusted cell mean could not be calculated, then method 3 (cell mean) was used. The variables in the fifth group, along with the highly correlated variable(s) in the prior year ratio, include:

- **Employee Benefits Expenditures (BENEFIT):**
 - Total Staff Expenditures (STAFFEXP)
- **Inter-Library Loans Provided To (LOANTO):**
 - Inter-Library Loans Received From (LOANFM)

The **Electronic Materials Expenditures (ELMATEXP)** and **Number of Internet Computers Used by General Public (GPTERMS)** variables were both considered part of both groups one and five. If missing values for **ELMATEXP** were imputed using method 4, then the **Total Collection Expenditures (TOTEXPCO)** variable was used as the other item in the prior year ratio. If missing values for **GPTERMS** were imputed using method 4, then the number of **Library Visits (VISITS)** was used as the other item in the prior year ratio.

The **Public Service Hours per Year (HRS_OPEN)** variable is similar to the other variables in group five, and used method 4 (Prior year ratio to another item) to impute for missing values. However, if non-zero prior year reported unit data were not available, then method 8 (Special impute) was used.

Group Six:

A sixth group of variables was imputed using method 5 (cell median ratio with another item); if current year reported unit data were not available for the other variable in the ratio, then method 2 (adjusted cell mean) was used ; if the adjusted cell mean could not be calculated, then method 3 (cell mean) was used. The variables in the sixth group, along with the highly correlated variable(s) used in the cell median ratio, include:

- **Print Material Expenditures (PRMATEXP):**
 - Total Collection Expenditures (TOTEXPCO)
- **State Databases (DB_ST):**
 - Total Licensed Databases (DATABASE)
- **Circulation of Children’s Materials (KIDCIRCL):**
 - Total Circulation (TOTCIR)
- **Number of Users of Public Internet Computers Per Year (PITUSR):**
 - Number of Internet Computers Used by General Public (GPTERMS)

The **Number of Children’s Programs (KIDPRO)** and the **Interlibrary Loans Received From (LOANFM)** variables can both be considered part of both groups one and six. If missing values for **KIDPRO** are imputed using method 5, then the **Total Number of Library Programs (TOTPRO)** variable is used as the highly correlated value in the cell median calculations. If missing values for **LOANFM** are imputed using method 5, then the **Interlibrary Loans Provided To (LOANTO)** variable is used as the highly correlated value in the cell median calculations.

Group Seven:

A seventh group of variables was imputed using method 5 (cell median ratio with another item), whether or not current year unit data were reported for the other variable in the ratio. The variables in this group, along with the highly correlated variable(s) used in the cell media ratio include:

- **Interlibrary Loans Received From (LOANFM):**
 - Interlibrary Loans Provided To (LOANTO)
- **Total Number of Library Programs (TOTPRO):**
 - Number of Children’s Programs (KIDPRO)
- **Children’s Program Attendance (KIDATTEN):**
 - Total Attendance at Library Programs (TOTATTEN)

The **Inter-Library Loans Provided To (LOANTO)** can be considered part of both groups five and seven. If nonzero prior year reported unit data were available, then method 4 (prior year ratio to another item) was used; if not, then method 5 (cell median ratio with another item) was used as the backup method. For both methods, the **Interlibrary Loans Received From (LOANFM)** was used as the highly correlated variable when forming the ratios.

Group Eight:

An eighth group consisted of new variables introduced in FY2010.

- **Audio – Physical Units (AUDIO_PH)**
- **Video – Physical Units (VIDEO_PH)**

The **Audio – Physical Units (AUDIO_PH)** variable is part of the former **AUDIO (physical and downloadable)** variable, while the **Video – Physical Units (VIDEO_PH)** variable is part of the former **VIDEO (physical and downloadable)** variable. Imputations for variables in group eight were done using method 8 (Special imputes), which depended on prior year reported values for the former **AUDIO** and **VIDEO** variables during FY2009 and before. If this prior year data were not available, then method 2 (Adjusted cell mean) was used to carry out the imputations. If the adjusted cell mean could not be calculated, then method 3 (Cell mean) was used.

Second Stage: Adjustments

The methods listed below adjusted imputations for some of the missing values, based on the PLS variable. These adjustments verify that detail items sum to totals, making corrections as necessary.

METHOD 9: Obtained value by relationship of Total to Detail Items. The imputed value of a total was adjusted using its relationship with reported detail items.

METHOD 10: Raking of detail items to match total. The imputed value for a detail item was adjusted by raking methods so that it matches a reported total.

METHOD 11: Changed by consistency check. The imputed value was adjusted using customized consistency checks specific to that variable.

Group One:

These variables were adjusted using methods 9 (Obtained value by relationship of total to detail items) or method 10 (Raking) after the initial stage of imputation:

- **All Other Paid Staff (OTHPAID)**
- **Total Paid Employees (TOTSTAFF)**
- **Local Government Capital Revenue (LCAP_REV)**
- **State Government Capital Revenue (SCAP_REV)**
- **Federal Capital Revenue (FCAP_REV)**
- **Other Capital Revenue (OCAP_REV)**

Group Two:

These variables were adjusted using method 9 (Obtained value by relationship of total to detail items) after the initial stage of imputation:

- **Salaries & Wages Expenditures (SALARIES)**
- **Employee Benefits Expenditures (BENEFIT)**
- **Total Staff Expenditures (STAFFEXP)**
- **Print Materials Expenditures (PRMATEXP)**
- **Total Collection Expenditures (TOTEXPCO)**
- **Other Operating Expenditures (OTHOPEXP)**
- **Total Operating Expenditures (TOTOPEXP)**
- **Total Capital Revenue (CAP_REV)**
- **Total Operating Income (TOTINCM)**
- **Total Licensed Databases (DATABASE)**

Note that in certain sparse data conditions, **Salaries & Wages Expenditures (SALARIES)**, **Employee Benefits Expenditures (BENEFIT)**, **Total Staff Expenditures (STAFFEXP)**, and **Total Collection Expenditures (TOTEXPCO)** can be adjusted using a prior year ratio to another item (method 4) after the initial stage of imputation.

Group Three:

These variables were adjusted using method 10 (Raking) after the initial stage of imputation:

- **Print Materials Expenditures (PRMATEXP)**
- **Electronic Materials Expenditures (ELMATEXP)**
- **Other Materials Expenditures (OTHMATEXP)**
- **Federal Government Revenue (FEDGVT)**
- **State Government Revenue (STGVT)**
- **Local Government Revenue (LOGVT)**
- **Other Operating Revenue (OTHINCM)**

- **State Databases (DB_ST)**
- **Local Databases (DB_LOC)**
- **Other Databases (DB_OTH)**

Group Four:

These variables were adjusted using method 11 (Consistency Check) after the initial stage of imputation:

- **Total Circulation (TOTCIR)**
- **Interlibrary Loans Received From (LOANFM)**
- **Total Number of Library Programs (TOTPRO)**
- **Number of Children’s Programs (KIDPRO)**
- **Total Attendance at Library Programs (TOTATTEN)**
- **Children’s Program Attendance (KIDATTEN)**
- **Number of Internet Computers Used by General Public (GPTERMS)**
- **Number of Users of Public Internet Computers Per Year (PITUSR)**

The variable **Total Capital Expenditures (CAPITAL)** was adjusted using method 8 (Special Imputes) after the initial stage of imputation.

The variable **Total Librarians (LIBRARIA)** was adjusted using methods 9 (Obtained value by relationship of total to detail items), 10 (Raking), or 11 (Consistency Check) after the initial stage of imputation.

The variable **Librarians with Master’s degrees from programs accredited by the ALA (MASTER)** was adjusted using methods 9 (Obtained value by relationship of total to detail items) or 11 (Consistency Check) after the initial stage of imputation.

Note that variables **Total Number of Library Programs (TOTPRO)** and **Children’s Program Attendance (KIDATTEN)** were both adjusted using cell median ratio to another item (method 5) in some situations.

Nonsampling Errors

Because all units in the universe are surveyed, the data are not subject to sampling error, but they are subject to nonsampling errors, such as errors in response, nonresponse errors, coverage errors arising from an incomplete listing of public libraries, coding errors, or processing errors.

Every effort is made to mitigate such errors. The editing efforts described above are designed to decrease the number of errors due to inaccurate response or due to processing problems. Imputation lessens the effect of nonresponse. Efforts are made to obtain complete listings of public libraries from the state library agencies. Although such efforts are made, some nonsampling error likely remains in the data.

Note: Errors in response to the audio and video downloadables data were confirmed by some states. The data were incorrectly reported as ‘units’ instead of ‘titles’. The incorrect data for these states were deleted from the data files.

Geocoding

The following supplemental geography information is provided with this data release:

- Longitude
- Latitude

FIPS State Code
FIPS County Code
FIPS Place Code
County Population
Locale Code
Census Tract
Census Block
Congressional District
Match Centroid

This supplemental geographic information is available for administrative entities and outlets that are central or branch libraries. Starting for FY 2009, bookmobiles and books by mail only outlets were also geocoded. All supplemental geography codes are assigned based on the address information reported by the respondent.

Starting FY 2009, the state and county code variables, PUB_FIPS and CNTYFIPS, were discontinued. When supplemental geocodes are provided, state and county codes are on the files resulting from the geocoding processing for variables FIPSST and FIPSCO. To avoid duplication or discrepancies, only one set of state and county codes is included on the files.

The geocodes were processed in batch using an online geocoding service. Respondents' addresses (state, city, address, zip code, zip code + 4) were input into the server, processed and sent back to IMLS as a text file. There were four different geographic levels at which an address could be matched. The most exact match was an address-level match; these are cases where the exact street address of the library or outlet was matched (in a small number of cases, a nearby intersection or close alternate address was used to approximate an address-level match). When the geoprocessing software was unable to match the exact street address, it returned the centroid of the smallest zip code-based area that it could identify based on the input address. The most exact zip code centroid match is the zip code + 4, followed by the zip code + 2. The least exact zip code centroid match is the 5-digit zip code. Users can identify the geographic level of the match using the variable MAT_CENT.

Of the 9,299 libraries in the 50 states, the District of Columbia, Puerto Rico and Guam that appear in the administrative entity level file, 90.7 percent of the records were address level matches, 6.9 percent of the matches were 5-digit zip code matches, 1.6 percent were zip code + 4 matches and 0.8 percent were zip code + 2 matches. Less than 0.1 percent of the records went unmatched. Of the 17,636 central, branch, bookmobiles, and books by mail only outlets in the 50 states, the District of Columbia, Puerto Rico and Guam that appear in the outlet-level file, 89.5 percent of the records were address level matches, 7.3 percent of the matches were 5-digit zip code matches, 2.1 percent were zip code + 4 matches and 1.0 percent were zip code + 2 matches. Less than 0.1 percent of the records went unmatched.

Beginning with the FY 2008 data file, locale codes were added to the dataset. These locale codes allow users to quickly identify whether or not library outlets and administrative entities are located in cities, suburbs, towns, or rural areas. These locale codes were assigned to libraries using the same methodology that is used to assign public schools locale codes in the National Center for Education Statistics' Common Core of Data datasets. The 12 different locale codes and the criteria for assigning them are described below:

11 - City, Large: Territory inside an urbanized area and inside a principal city with population of 250,000 or more.

12 - City, Midsize: Territory inside an urbanized area and inside a principal city with population less than 250,000 and greater than or equal to 100,000.

13 - City, Small: Territory inside an urbanized area and inside a principal city with population less than 100,000.

21 - Suburb, Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more.

22 - Suburb, Midsize: Territory outside a principal city and inside an urbanized area with population less than 250,000 and greater than or equal to 100,000.

23 - Suburb, Small: Territory outside a principal city and inside an urbanized area with population less than 100,000.

31 - Town, Fringe: Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area.

32 - Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area.

33 - Town, Remote: Territory inside an urban cluster that is more than 35 miles from an urbanized area.

41 - Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster.

42 - Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster.

43 - Rural, Remote: Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster.

Library outlets were assigned locale codes based on the geocoded latitude and longitude values of their street addresses. Administrative entities were assigned locale codes based on the modal locale codes among central and branch libraries of that library system. Whenever there was a tie, priority was given to the locale code corresponding to the administrative entity's street address. If the tie involved locale codes that were different from the locale code corresponding to the administrative entity's street address, the most urban code of the tied locale codes was assigned to that administrative entity (the order of urbanicity of locale codes, from highest to lowest is 11, 12, 13, 21, 22, 23, 31, 32, 33, 41, 42, 43).

The geocoding service returned the following geographic identifiers that appear on the administrative entity and outlet-level files: longitude, latitude, FIPS state code, FIPS county code, FIPS place code, Census tract, Census block and match centroid. The Census Bureau added locale codes, Congressional district codes, and county population estimates to the file. The World Geodetic System 1984 (WGS 1984, Mercator Web) map projection was used throughout the geocoding process.

II. B. Guidelines for Processing the Data Files

See *Introduction, Confidentiality, and Public- and Restricted-Use Data Files* above for a description of the files.

The Census Bureau developed the software that the states used to report the PLS data. At survey mail-out, all numeric data fields were initialized with "-2", and respondents were instructed to replace the "-2" with valid data. Alphanumeric fields that are blank or that contain "M" and numeric fields that contain "-1" indicate nonresponse. A zero (0) response is reported data and indicates the library or outlet had none of the item. (Note: On the public-use file, blank fields for the variables SALARIES, BENEFIT, STAFFEXP, and OTHOPEXP indicate that the data have been removed to protect the confidentiality of individual respondents.) For the 50 states and the District of Columbia, missing data for numeric items were

imputed. Missing data were not imputed for outlying areas. See the *Imputation* section above for a discussion of the imputation methodology. See Appendix G for imputation flags and their definitions.

How to remove imputed values from the data. If the value of the flag begins with 'I', then the value for the associated variable was imputed. To remove all imputed values from the data, the values of variables that have an associated imputation flag beginning with 'I' should be removed. (Note: The flag variable is a four-character, left-justified field.)

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
Data Source: Public Libraries Survey, Fiscal Year 2010 Number of records = 9,308 (one record per observation) Number of fields per record = 154 ASCII file (pupld10a.txt) is fixed width (file size = 10,345 KB)					
STABR	02	1	A	†	IDENTIFICATION Two-letter Federal Information Processing Standards (FIPS) State Code. (See Appendix D for list of State Codes.)
FSCSKEY	06	3	A	150	Library identification code assigned by IMLS
LIBID	20	9	A	151	Library identification code assigned by the state. IMLS assigns the FSCSKEY to this field if the state did not assign a code.
LIBNAME	60	29	A	152	Name of library (administrative entity)
ADDRESS	35	89	A	153	STREET ADDRESS Street address of administrative entity
CITY	20	124	A	154	City or town (of street address) of administrative entity
ZIP	05	144	A	155	Standard five-digit postal zip code (of street address) of administrative entity. M = Missing (unknown, not reported)
ZIP4	04	149	A	156	Four-digit postal zip code extension (of street address) of administrative entity. M = Missing (unknown, not reported)
ADDRES_M	35	153	A	157	MAILING ADDRESS Mailing address of administrative entity
CITY_M	20	188	A	158	City or town (of mailing address) of administrative entity
ZIP_M	05	208	A	159	Standard five-digit postal zip code (of mailing address) of administrative entity M = Missing (unknown, not reported)
ZIP4_M	04	213	A	160	Four-digit postal zip code extension (of mailing address) of administrative entity M = Missing (unknown, not reported)
CNTY	20	217	A	161	County in which the headquarters of the administrative entity is physically located
PHONE	10	237	A	162	Telephone number, in following format: area code/exchange/number (for example, 7037315072) M = Missing (unknown, not reported) -3 = Not applicable
WEB_ADDR	80	247	A	163	Web address of the administrative entity. M = Missing (unknown, not reported) -3 = Not applicable
C_RELATN	02	327	A	200	Interlibrary Relationship Code

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
					HQ—Headquarters of a federation or cooperative ME—Member of a federation or cooperative NO—Not a member of a federation or cooperative
C_LEGBAS	02	329	A	201	Legal Basis Code CC—City/County CI—Municipal Government (city, town, or village) CO—County/Parish LD—Library District MJ—Multi-jurisdictional NL—Native American Tribal Government NP—Non-profit Association or Agency SD—School District OT—Other (Note: Prior to FY 98, this variable was called C_LEGBASE.)
C_ADMIN	02	331	A	202	Administrative Structure Code MA—Administrative Entity with multiple direct service outlets where administrative offices are separate MO—Administrative Entity with multiple direct service outlets where administrative offices are not separate SO—Single Outlet Administrative Entity
C_FSCS	01	333	A	203	FSCS Public Library Definition (Public library meets all criteria in the definition.) Y—Yes N—No
GEOCODE	03	334	A	204	Geographic Code CI1—Municipal Government (city, town, or village) (exactly) CI2—Municipal Government (city, town, or village) (most nearly) CO1—County/Parish (exactly) CO2—County/Parish (most nearly) MA1—Metropolitan Area (exactly) MA2—Metropolitan Area (most nearly) MC1—Multi-County (exactly) MC2—Multi-County (most nearly) SD1—School District (exactly) SD2—School District (most nearly) OTH—Other
LSABOUND	01	337	A	205	Legal service area boundary change in last year Y—Yes N—No
STARTDAT	10	338	A	206	Reporting period starting date, in mm/dd/yyyy format (e.g., 07/01/2009) M—Missing (unknown, not reported)
F_STDAT	04	348	A	†	STARTDAT imputation flag. (See Appendix G for definition of flags.)
ENDDATE	10	352	A	207	Reporting period ending date, in mm/dd/yyyy format (e.g., 06/30/2010) M—Missing (unknown, not reported)

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
F_ENDDAT	04	362	A	†	ENDDATE imputation flag. (See Appendix G for definition of flags.)
POPULATION					
POPU_LSA	09	366	N	208	Population of the Legal Service Area
F_POPLSA	04	375	A	†	POPU_LSA imputation flag. (See Appendix G for definition of flags.)
POPU_UND	09	379	N	209	Unduplicated population of the legal service area for the library. This value is calculated by prorating the library's population of legal service area (POPU_LSA) to the state's total population of legal service areas (total POPU_LSA), and applying the ratio to the state-reported total unduplicated population of legal service areas. The latter item, a single figure reported by the state data coordinator, is also named POPU_UND but is located on the State Summary/State Characteristics Data File.
F_POPUND	04	388	A	†	POPU_UND imputation flag. (See Appendix G for definitions of flags.)
SERVICE OUTLETS					
CENTLIB	03	392	N	210	Number of central libraries
F_CENLIB	04	395	A	†	CENTLIB imputation flag. (See Appendix G for definitions of flags.)
BRANLIB	03	399	N	211	Number of branch libraries
F_BRLIB	04	402	A	†	BRANLIB imputation flag. (See Appendix G for definitions of flags.)
BKMOB	03	406	N	212	Number of bookmobiles
F_BKMOB	04	409	A	†	BKMOB imputation flag. (See Appendix G for definitions of flags.)
FULL-TIME EQUIVALENT (FTE) PAID STAFF					
MASTER	09	413	N	250	"ALA-MLS" Librarians. Number of FTE paid librarians with Master's degrees from programs of library and information studies accredited by the American Library Association. This field consists of six integers and two decimals, with an explicit decimal point.
F_MASTER	04	422	A	†	MASTER imputation flag. (See Appendix G for definitions of flags.)
LIBRARIA	09	426	N	251	Total number of FTE employees holding the title of librarian. This field consists of six integers and two decimals, with an explicit decimal point.
F_LIBRAR	04	435	A	†	LIBRARIA imputation flag. (See Appendix G for definitions of flags.)
OTHPAID	09	439	N	252	All other paid FTE employees. This field consists of six integers and two decimals, with an explicit decimal point.

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
F_OTHSTF	04	448	A	†	OTHPAID imputation flag. (See Appendix G for definitions of flags.)
TOTSTAFF	10	452	N	253	Total paid FTE employees (i.e., sum of LIBRARIA and OTHPAID). This field consists of seven integers and two decimals, with an explicit decimal point.
F_TOTSTF	04	462	A	†	TOTSTAFF imputation flag. (See Appendix G for definitions of flags.)
OPERATING REVENUE					
LOGGVT	09	466	N	300	Operating revenue from local government
F_LOGGVT	04	475	A	†	LOGGVT imputation flag. (See Appendix G for definitions of flags.)
STGVT	09	479	N	301	Operating revenue from state government
F_STGVT	04	488	A	†	STGVT imputation flag. (See Appendix G for definitions of flags.)
FEDGVT	09	492	N	302	Operating revenue from federal government
F_FEDGVT	04	501	A	†	FEDGVT imputation flag. (See Appendix G for definitions of flags.)
OTHINCM	09	505	N	303	Other operating revenue (i.e., operating revenue not included in LOGGVT, STGVT, and FEDGVT)
F_OTHINC	04	514	A	†	OTHINCM imputation flag. (See Appendix G for definitions of flags.)
TOTINCM	10	518	N	304	Total operating revenue (i.e., sum of LOGGVT, STGVT, FEDGVT, and OTHINCM)
F_TOTINC	04	528	A	†	TOTINCM imputation flag. (See Appendix G for definitions of flags.)
OPERATING EXPENDITURES					
Staff Expenditures					
SALARIES	09	532	N	350	Salaries and wages for all library staff
F_SALX	04	541	A	†	SALARIES imputation flag. (See Appendix G for definitions of flags.)
BENEFIT	09	545	N	351	Employee benefits for all library staff
F_BENX	04	554	A	†	BENEFIT imputation flag. (See Appendix G for definitions of flags.)
STAFFEXP	09	558	N	352	Total staff expenditures (i.e., sum of SALARIES and BENEFIT)
F_TOSTFX	04	567	A	†	STAFFEXP imputation flag. (See Appendix G for definitions of flags.)

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
PRMATEXP	09	571	N	353	Collection expenditures Operating expenditures for print materials (including books, serial back files, current serial subscriptions, government documents, and any other print acquisitions)
F_PRMATX	04	580	A	†	PRMATEXP imputation flag. (See Appendix G for definitions of flags.)
ELMATEXP	09	584	N	354	Operating expenditures for electronic (digital) materials (including e-books, e-serials, government documents, databases, electronic files, reference tools, scores, maps, or pictures, including materials digitized by the library)
F_ELMATX	04	593	A	†	ELMATEXP imputation flag. (See Appendix G for definitions of flags.)
OTHMATEX	09	597	N	355	Operating expenditures for all other library materials (microform, audio, video, DVD, and new formats)
F_OTMATX	04	606	A	†	OTHMATEX imputation flag. (See Appendix G for definitions of flags.)
TOTEXPCO	09	610	N	356	Total expenditures on library collection (i.e., sum of PRMATEXP, ELMATEXP, and OTHMATEX)
F_TOCOLX	04	619	A	†	TOTEXPCO imputation flag. (See Appendix G for definitions of flags.)
OTHOPEXP	09	623	N	357	Other operating expenditures Other operating expenditures (i.e., operating expenditures not included in STAFFEXP and TOTEXPCO)
F_OTHOPX	04	632	A	†	OTHOPEXP imputation flag. (See Appendix G for definitions of flags.)
TOTOPEXP	10	636	N	358	Total operating expenditures (i.e., sum of STAFFEXP, TOTEXPCO, and OTHOPEXP)
F_TOTOPX	04	646	A	†	TOTOPEXP imputation flag. (See Appendix G for definitions of flags.)
LCAP_REV	09	650	N	400	CAPITAL REVENUE Local government capital revenue
F_LCAPRV	04	659	A	†	LCAP_REV imputation flag. (See Appendix G for definitions of flags.)
SCAP_REV	09	663	N	401	State government capital revenue
F_SCAPRV	04	672	A	†	SCAP_REV imputation flag. (See Appendix G for definition of flags.)
FCAP_REV	09	676	N	402	Federal government capital revenue
F_FCAPRV	04	685	A	†	FCAP_REV imputation flag. (See Appendix G for definitions of flags.)

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
OCAP_REV	09	689	N	403	Other capital revenue (i.e., capital revenue not included in LCAP_REV, SCAP_REV, and OCAP_REV)
F_OCAPRV	04	698	A	†	OCAP_REV imputation flag. (See Appendix G for definition of flags.)
CAP_REV	09	702	N	404	Total capital revenue (i.e., sum of LCAP_REV, SCAP_REV, FCAP_REV, and OCAP_REV)
F_TCAPRV	04	711	A	†	CAP_REV imputation flag. (See Appendix G for definitions of flags.)
CAPITAL EXPENDITURES					
CAPITAL	09	715	N	405	Total capital expenditures
F_TCAPX	04	724	A	†	CAPITAL imputation flag. (See Appendix G for definitions of flags.)
LIBRARY COLLECTION					
BKVOL	09	728	N	450	Print materials (including books, serial back files, and government documents)
F_BKVOL	04	737	A	†	BKVOL imputation flag. (See Appendix G for definitions of flags.)
EBOOK	09	741	N	451	Electronic books (E-books) (digital documents, including non-serial government documents in digital format)
F_EBOOK	04	750	A	†	EBOOK imputation flag. (See Appendix G for definitions of flags.)
AUDIO_PH	09	754	N	452	Audio - physical units (including records, audiocassettes, audio cartridges, audio discs—including audio-CD-ROMS, audio reels, talking books, and other sound recordings)
F_AUD_PH	04	763	A	†	AUDIO_PH imputation flag. (See Appendix G for definitions of flags.)
AUDIO_DL	09	767	N	453	Audio - downloadable titles
F_AUD_DL	04	776	A	†	AUDIO_DL imputation flag. (See Appendix G for definitions of flags.)
VIDEO_PH	09	780	N	454	Video - physical units (including video tapes, DVDs, video CD-ROMs, etc.)
F_VID_PH	04	789	A	†	VIDEO_PH imputation flag. (See Appendix G for definitions of flags.)
VIDEO_DL	09	793	N	455	Video - downloadable titles
F_VID_DL	04	802	A	†	VIDEO_DL imputation flag. (See Appendix G for definitions of flags.)
LICENSED DATABASES					
DB_LOC	09	806	N	456	Local licensed databases

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
F_DB_LOC	04	815	A	†	DB_LOC imputation flag. (See Appendix G for definitions of flags.)
DB_ST	09	819	N	457	State (state government or state library) licensed databases
F_DB_ST	04	828	A	†	DB_ST imputation flag. (See Appendix G for definitions of flags.)
DB_OTH	09	832	N	458	Other licensed databases (cooperative agreements or consortia within state or region)
F_DB_OTH	04	841	A	†	DB_OTH imputation flag. (See Appendix G for definitions of flags.)
DATABASE	09	845	N	459	Total Licensed Databases
F_DBASE	04	854	A	†	DATABASE imputation flag. (See Appendix G for definitions of flags.)
SUBSCRIP	09	858	N	460	Current print serial subscriptions
F_PRSUB	04	867	A	†	SUBSCRIP imputation flag. (See Appendix G for definitions of flags.)
PUBLIC SERVICE HOURS					
HRS_OPEN	09	871	N	500	Total annual public service hours for all service outlets
F_HRS_OP	04	880	A	†	HRS_OPEN imputation flag. (See Appendix G for definitions of flags.)
LIBRARY SERVICES					
VISITS	09	884	N	501	Total annual library visits
F_VISITS	04	893	A	†	VISITS imputation flag. (See Appendix G for definitions of flags.)
REFERENC	09	897	N	502	Total annual reference transactions
F_REFER	04	906	A	†	REFERENC imputation flag. (See Appendix G for definitions of flags.)
REGBOR	09	910	N	503	Registered Borrowers
F_REGBOR	04	919	A	†	REGBOR imputation flag. (See Appendix G for definitions of flags.)
CIRCULATION					
TOTCIR	09	923	N	550	Total annual circulation transactions
F_TOTCIR	04	932	A	†	TOTCIR imputation flag. (See Appendix G for definitions of flags.)
KIDCIRCL	09	936	N	551	Total annual circulation (including renewals) of all children's materials in all formats to all users
F_KIDCIR	04	945	A	†	KIDCIRCL imputation flag. (See Appendix G for definitions of flags.)

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
					INTER-LIBRARY LOANS
LOANTO	06	949	N	552	Total annual loans provided to other libraries
F_LOANTO	04	955	A	†	LOANTO imputation flag. (See Appendix G for definitions of flags.)
LOANFM	06	959	N	553	Total annual loans received from other libraries
F_LOANFM	04	965	A	†	LOANFM imputation flag. (See Appendix G for definitions of flags.)
					LIBRARY PROGRAMS
TOTPRO	09	969	N	600	Total library programs
F_TOTPRO	04	978	A	†	TOTPRO imputation flag. (See Appendix G for definitions of flags.)
KIDPRO	09	982	N	601	Total children's programs
F_KIDPRO	04	991	A	†	KIDPRO imputation flag. (See Appendix G for definitions of flags.)
YAPRO	09	995	N	602	Total young adult programs
F_YAPRO	04	1004	A	†	YAPRO imputation flag. (See Appendix G for definitions of flags.)
TOTATTEN	09	1008	N	603	Total audience at all library programs
F_TOTATT	04	1017	A	†	TOTATTEN imputation flag. (See Appendix G for definitions of flags.)
KIDATTEN	09	1021	N	604	Total audience at all children's programs
F_KIDATT	04	1030	A	†	KIDATTEN imputation flag. (See Appendix G for definitions of flags.)
YAATTEN	09	1034	N	605	Total audience at all young adult programs
F_YAATT	04	1043	A	†	YAATTEN imputation flag. (See Appendix G for definitions of flags.)
					ELECTRONIC TECHNOLOGY
GPTEMS	06	1047	N	650	Internet computers used by general public
F_GPTEMS	04	1053	A	†	GPTEMS imputation flag. (See Appendix G for definitions of flags.)
PITUSR	09	1057	N	651	Users of public internet computers per year
F_PITUSR	04	1066	A	†	PITUSR imputation flag. (See Appendix G for definitions of flags.)
YR_SUB	04	1070	A	†	FSCS submission year of public library data in 4-digit format (YYYY)
OBereg	02	1074	A	†	Bureau of Economic Analysis Code (formerly, Office of Business Economics) 01–New England (CT ME MA NH RI VT)

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
					02—Mid East (DE DC MD NJ NY PA) 03—Great Lakes (IL IN MI OH WI) 04—Plains (IA KS MN MO NE ND SD) 05—Southeast (AL AR FL GA KY LA MS NC SC TN VA WV) 06—Southwest (AZ NM OK TX) 07—Rocky Mountains (CO ID MT UT WY) 08—Far West (AK CA HI NV OR WA) 09—Outlying Areas (AS GU MP PR VI)
RSTATUS	01	1076	A	†	Reporting status 1—Respondent, with no imputed data 2—Respondent, with both reported and imputed data 3—Nonrespondent, not imputed 4—Nonrespondent with imputed data
STATSTRU	02	1077	A	†	Structure Change Code 00—No change from last year 01—Existing Administrative Entity or Outlet absorbs another Administrative Entity or Outlet 02—Newly created Administrative Entity or Outlet 03—Closed 04—Move Outlet to a newly created Administrative Entity 05—Merge two or more Administrative Entities or Outlets to form a new Administrative Entity or Outlet 06—(reserved) 07—(reserved) 08—Restored a closed Administrative Entity or Outlet record 09—Restored an incorrectly deleted Administrative Entity or Outlet 10—Delete an incorrect record 11—Outlet moved to a different previously existing Administrative Entity 12—(reserved) 13—Add an existing Administrative Entity or Outlet not previously reported 22—Future Administrative Entity FSCS ID Request 23—Temporary Closure 24—Restore/Undo Was a 23 (Reopen a Temporarily Closed Administrative Entity) (Note: This code records structure changes to administrative entities and outlets, and is included on the Public Library Data File and the Public Library Outlet File. Structure changes include actions such as adding, deleting, or merging administrative entities or outlets. The full list of codes is provided; however, some codes are specific to one of the data files (e.g., code 11 would appear only on the Public Library Outlet Data File.)
STATNAME	02	1079	A	152A	Name Change Code 00—No change from last year 06—Official name change 14—Minor name change

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

STATADDR	02	1081	A	153A	Address Change Code 00—No change from last year 07—Moved to a new location 15—Minor address change
LONGITUD	11	1083	N	†	Longitude. This field consists of a negative sign, three integers and six decimal places, with an explicit decimal point. 0.000000 - Missing
LATITUDE	09	1094	N	†	Latitude. This field consists of two integers and six decimal places, with an explicit decimal point. 0.000000 - Missing
FIPSST	02	1103	A	†	Two-digit American National Standards Institute (ANSI) State Code (assigned based on the physical location of the administrative entity headquarters). See Appendix D for list of State Codes. 00 - Missing
FIPSCO	03	1105	A	†	Three-digit ANSI County Code (assigned based on the physical location of the administrative entity headquarters) 000 - Missing
FIPSPLAC	05	1108	A	†	Five-digit ANSI Place Code 00000 - Missing
CNTYPOP	08	1113	N	†	County Population -1 = Missing
LOCALE	02	1121	A	†	Urban-centric locale code. The geographic location in terms of the size of the community in which it is located and the proximity of that community to urban and metropolitan areas. .-Missing 11—City, Large: Territory inside an urbanized area and inside a principal city with population of 250,000 or more 12—City, Mid-size: Territory inside an urbanized area and inside a principal city with a population less than 250,000 and greater than or equal to 100,000 13—City, Small: Territory inside an urbanized area and inside a principal city with a population less than 100,000 21—Suburb, Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more 22—Suburb, Mid-size: Territory outside a principal city and inside an urbanized area with a population less than 250,000 and greater than or equal to 100,000 23—Suburb, Small: Territory outside a principal city and inside an urbanized area with a population less than 100,000 31—Town, Fringe: Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area 32—Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area 33—Town, Remote: Territory inside an urban cluster that is more than 35 miles from an urbanized area

**Appendix A—Record Layout for Public Library Data File, FY 2010
(pupld10a.mdb and pupld10a.txt)**

41—Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster
 42—Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster
 43—Rural, Remote: Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster

CENTRACT	07	1123	N	†	Census Tract. A small, relatively permanent statistical subdivision of a county or statistically equivalent entity delineated by local participants as part of the Census Bureau's Participant Statistical Areas Program. This field consists of four integers and two decimals, with an explicit decimal point. 0 - Missing
CENBLOCK	04	1130	N	†	Census Block. An area bounded on all sides by visible features, such as streets, roads, streams, and railroads tracks, and by invisible boundaries, such as city, town, township, and county limits, property lines, and short, imaginary extensions of streets and roads (designated by the Census Bureau). 0 - Missing
CDCODE	02	1134	A	†	Congressional District. ANSI code based on the location of the administrative entity/outlet. Legislatively defined subdivisions of the state for the purpose of electing representatives to the House of Representatives of the U.S. Congress. .-Missing
MAT_CENT	01	1136	A	†	Match Centroid. The geographic level at which the address was matched. .-Missing 0—Matched the actual street of this location 4—The centroid of the 5-digit zip code + 4 area that the location falls within 2—The centroid of the 5-digit zip code + 2 area that the location falls within X—The centroid of the 5-digit zip code that the library or administrative entity is located in

N Numeric field.
 A Alpha character field.
 † Not applicable.

NOTE: The survey questionnaire is in Appendix F.

**Appendix B—Record Layout for Public Library State Summary/
State Characteristics Data File, FY 2010
(pusum10a.mdb and pusum10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
Data Source: Public Libraries Survey, Fiscal Year 2010					
Number of records = 55 (one record per observation)					
Number of fields per record = 122					
ASCII file (pusum10a.txt) is fixed width (file size = 45 KB)					
STABR	02	1	A	†	IDENTIFICATION Two-letter Federal Information Processing Standards (FIPS) State Code. (See Appendix D for list of State Codes.)
POPU_LSA	10	3	N	208	POPULATION Population of the legal service area
F_POPLSA	04	13	A		POPU_LSA imputation flag. (See Appendix G for definitions of flags.)
POPU_UND	10	17	N	103	Total unduplicated population of legal service areas. (Note: This is a single, state-reported figure. This item is on the State Characteristics data entry screen.)
F_POPUND	04	27	A	†	POPU_UND imputation flag. (See Appendix G for definitions of flags.)
POPU_ST	10	31	N	102	Reported state total population estimate. (Note: This item is on the State Characteristics data entry screen.)
F_POPST	04	41	A	†	POPU_ST imputation flag. (See Appendix G for definitions of flags.)
CENLIB	05	45	N	209	SERVICE OUTLETS Number of central libraries
F_CENLIB	04	50	A	†	CENLIB imputation flag. (See Appendix G for definitions of flags.)
BRANLIB	05	54	N	210	Number of branch libraries
F_BRLIB	04	59	A	†	BRANLIB imputation flag. (See Appendix G for definitions of flags.)
BKMOB	05	63	N	211	Number of bookmobiles
F_BKMOB	04	68	A	†	BKMOB imputation flag. (See Appendix G for definitions of flags.)
MASTER	11	72	N	250	FULL-TIME EQUIVALENT (FTE) PAID STAFF "ALA-MLS" Librarians. Number of FTE paid librarians with master's degrees from programs of library and information studies accredited by the American Library Association. This field consists of eight integers and two decimals, with an explicit decimal point.
F_MASTER	04	83	A	†	MASTER imputation flag. (See Appendix G for definitions of flags.)

**Appendix B—Record Layout for Public Library State Summary/
State Characteristics Data File, FY 2010
(pusum10a.mdb and pusum10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
LIBRARIA	11	87	N	251	Total number of FTE employees holding the title of librarian. This field consists of eight integers and two decimals, with an explicit decimal point.
F_LIBRAR	04	98	A	†	LIBRARIA imputation flag. (See Appendix G for definitions of flags.)
OTHPAID	11	102	N	252	All other paid FTE employees. This field consists of eight integers and two decimals, with an explicit decimal point.
F_OTHSTF	04	113	A	†	OTHPAID imputation flag. (See Appendix G for definitions of flags.)
TOTSTAFF	12	117	N	253	Total paid FTE employees (i.e., sum of LIBRARIA and OTHPAID). This field consists of nine integers and two decimals, with an explicit decimal point.
F_TOTSTF	04	129	A	†	TOTSTAFF imputation flag. (See Appendix G for definitions of flags.)
OPERATING REVENUE					
LOGGVT	11	133	N	300	Operating revenue from local government
F_LOGGVT	04	144	A	†	LOGGVT imputation flag. (See Appendix G for definitions of flags.)
STGVT	11	148	N	301	Operating revenue from state government
F_STGVT	04	159	A	†	STGVT imputation flag. (See Appendix G for definitions of flags.)
FEDGVT	11	163	N	302	Operating revenue from federal government
F_FEDGVT	04	174	A	†	FEDGVT imputation flag. (See Appendix G for definitions of flags.)
OTHINCM	11	178	N	303	Other operating revenue (i.e., revenue not included in LOGGVT, STGVT, and FEDGVT)
F_OTHINC	04	189	A	†	OTHINCM imputation flag. (See Appendix G for definitions of flags.)
TOTINCM	12	193	N	304	Total operating revenue (i.e., sum of LOGGVT, STGVT, FEDGVT, and OTHINCM)
F_TOTINC	04	205	A	†	TOTINCM imputation flag. (See Appendix G for definitions of flags.)
OPERATING EXPENDITURES					
Staff expenditures					
SALARIES	11	209	N	350	Salaries and wages for all library staff
F_SALX	04	220	A	†	SALARIES imputation flag. (See Appendix G for definitions of flags.)
BENEFIT	11	224	N	351	Employee benefits for all library staff

**Appendix B—Record Layout for Public Library State Summary/
State Characteristics Data File, FY 2010
(pusum10a.mdb and pusum10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
F_BENX	04	235	A	†	BENEFIT imputation flag. (See Appendix G for definitions of flags.)
STAFFEXP	11	239	N	352	Total staff expenditures (i.e., sum of SALARIES and BENEFIT)
F_TOSTFX	04	250	A	†	STAFFEXP imputation flag. (See Appendix G for definitions of flags.)
PRMATEXP	09	254	N	353	Collection Expenditures Operating expenditures for print materials (including books, serial back files, current serial subscriptions, government documents, and any other print acquisitions)
F_PRMATX	04	263	A	†	PRMATEXP imputation flag. (See Appendix G for definitions of flags.)
ELMATEXP	09	267	N	354	Operating expenditures for electronic (digital) materials (including e-books, e-serials, government documents, databases, electronic files, reference tools, scores, maps, or pictures, including materials digitized by the library)
F_ELMATX	04	276	A	†	ELMATEXP imputation flag. (See Appendix G for definitions of flags.)
OTHMATEX	09	280	N	355	Operating expenditures for other library materials (microform, audio, video, DVD, and new formats)
F_OTMATX	04	289	A	†	OTHMATEX imputation flag. (See Appendix G for definitions of flags.)
TOTEXPCO	11	293	N	356	Total expenditures on library collection (i.e., sum of PRMATEXP, ELMATEXP, and OTHMATEX)
F_TOCOLX	04	304	A	†	TOTEXPCO imputation flag. (See Appendix G for definitions of flags.)
OTHOPEXP	11	308	N	357	Other operating expenditures Other operating expenditures (i.e., operating expenditures not included in STAFFEXP and TOTEXPCO)
F_OTHOPX	04	319	A	†	OTHOPEXP imputation flag. (See Appendix G for definitions of flags.)
TOTOPEXP	12	323	N	358	Total operating expenditures (i.e., sum of STAFFEXP, TOTEXPCO, and OTHOPEXP)
F_TOTOPX	04	335	A	†	TOTOPEXP imputation flag. (See Appendix G for definitions of flags.)
LCAP_REV	10	339	N	400	CAPITAL REVENUE Local government capital revenue
F_LCAPRV	04	349	A	†	LCAP_REV imputation flag. (See Appendix G for definitions of flags.)

**Appendix B—Record Layout for Public Library State Summary/
State Characteristics Data File, FY 2010
(pusum10a.mdb and pusum10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
SCAP_REV	10	353	N	401	State government capital revenue
F_SCAPRV	04	363	A	†	SCAP_REV imputation flag. (See Appendix G for definitions of flags.)
FCAP_REV	10	367	N	402	Federal government capital revenue
F_FCAPRV	04	377	A	†	FCAP_REV imputation flag. (See Appendix G for definitions of flags.)
OCAP_REV	10	381	N	403	Other capital revenue (i.e., capital revenue not included in LCAP_REV, SCAP_REV, and FCAP_REV)
F_OCAPRV	04	391	A	†	OCAP_REV imputation flag. (See Appendix G for definitions of flags.)
CAP_REV	11	395	N	404	Total capital revenue (i.e., sum of LCAP_REV, SCAP_REV, FCAP_REV, and OCAP_REV)
F_TCAPRV	04	406	A	†	CAP_REV imputation flag. (See Appendix G for imputation flags.)
CAPITAL EXPENDITURES					
CAPITAL	11	410	N	405	Total capital expenditures
F_TCAPX	04	421	A	†	CAPITAL imputation flag. (See Appendix G for definitions of flags.)
LIBRARY COLLECTION					
BKVOL	11	425	N	450	Print materials (including books, serial back files, and government documents)
F_BKVOL	04	436	A	†	BKVOL imputation flag. (See Appendix G for definitions of flags.)
EBOOK	09	440	N	451	Electronic books (E-books) (digital documents, including non-serial government documents in digital format)
F_EBOOK	04	449	A	†	EBOOK imputation flag. (See Appendix G for definitions of flags.)
AUDIO_PH	11	453	N	452	Audio - physical units (including records, audiocassettes, audio cartridges, audio discs—including audio-CD-ROMS, audio reels, talking books, and other sound recordings)
F_AUD_PH	04	464	A	†	AUDIO_PH imputation flag. (See Appendix G for definitions of flags.)
AUDIO_DL	11	468	N	453	Audio - downloadable titles
F_AUD_DL	04	479	A	†	AUDIO_DL imputation flag. (See Appendix G for definitions of flags.)
VIDEO_PH	11	483	N	454	Video - physical units (including video tapes, DVDs, video CD-ROMs, etc.)

**Appendix B—Record Layout for Public Library State Summary/
State Characteristics Data File, FY 2010
(pusum10a.mdb and pusum10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
F_VID_PH	04	494	A	†	VIDEO_PH imputation flag. (See Appendix G for definitions of flags.)
VIDEO_DL	11	498	N	455	Video - downloadable titles
F_VID_DL	04	509	A	†	VIDEO_DL imputation flag. (See Appendix G for definitions of flags.)
LICENSED DATABASES					
DB_LOC	09	513	N	456	Local licensed databases
F_DB_LOC	04	522	A	†	DB_LOC imputation flag. (See Appendix G for definitions of flags.)
DB_ST	09	526	N	457	State (state government or state library) licensed databases
F_DB_ST	04	535	A	†	F_DB_ST imputation flag. (See Appendix G for definitions of flags.)
DB_OTH	09	539	N	458	Other licensed databases (cooperative agreements or consortia within state or region)
F_DB_OTH	04	548	A	†	F_DB_OTH imputation flag. (See Appendix G for definitions of flags.)
DATABASE	09	552	N	459	Total licensed databases
F_DBASE	04	561	A	†	DATABASE imputation flag. (See Appendix G for definitions of flags.)
SUBSCRIP	11	565	N	460	Current print serial subscriptions
F_PRSUB	04	576	A	†	SUBSCRIP imputation flag. (See Appendix G for definitions of flags.)
PUBLIC SERVICE HOURS					
HRS_OPEN	11	580	N	500	Total annual public service hours for all service outlets
F_HRS_OP	04	591	A	†	HRS_OPEN imputation flag. (See Appendix G for definitions of flags.)
LIBRARY SERVICES					
VISITS	11	595	N	501	Total annual library visits
F_VISITS	04	606	A	†	VISITS imputation flag. (See Appendix G for definitions of flags.)
REFERENC	11	610	N	502	Total annual reference transactions
F_REFER	04	621	A	†	REFERENC imputation flag. (See Appendix G for definitions of flags.)
REGBOR	11	625	N	503	Registered Borrowers
F_REGBOR	04	636	A	†	F_REGBOR imputation flag. (See Appendix G for definitions of flags.)

**Appendix B—Record Layout for Public Library State Summary/
State Characteristics Data File, FY 2010
(pusum10a.mdb and pusum10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
CIRCULATION					
TOTCIR	11	640	N	550	Total annual circulation transactions
F_TOTCIR	04	651	A	†	TOTCIR imputation flag. (See Appendix G for definitions of flags.)
KIDCIRCL	09	655	N	551	Total annual circulation (including renewals) of all children's materials in all formats to all users
F_KIDCIR	04	664	A	†	KIDCIRCL imputation flag. (See Appendix G for definitions of flags.)
INTER-LIBRARY LOANS					
LOANTO	08	668	N	552	Total annual loans provided to other libraries
F_LOANTO	04	676	A	†	LOANTO imputation flag. (See Appendix G for definitions of flags.)
LOANFM	08	680	N	553	Total annual loans received from other libraries
F_LOANFM	04	688	A	†	LOANFM imputation flag. (See Appendix G for definitions of flags.)
LIBRARY PROGRAMS					
TOTPRO	09	692	N	600	Total library programs
F_TOTPRO	04	701	A	†	TOTPRO imputation flag. (See Appendix G for definitions of flags.)
KIDPRO	09	705	N	601	Total children's programs
F_KIDPRO	04	714	A	†	KIDPRO imputation flag. (See Appendix G for definitions of flags.)
YAPRO	09	718	N	602	Total young adult programs
F_YAPRO	04	727	A	†	YAPRO imputation flag. (See Appendix G for definitions of flags.)
TOTATTEN	09	731	N	603	Total audience at all library programs
F_TOTATT	04	740	A	†	TOTATTEN imputation flag. (See Appendix G for definitions of flags.)
KIDATTEN	09	744	N	604	Total audience at all children's programs
F_KIDATT	04	753	A	†	KIDATTEN imputation flag. (See Appendix G for definitions of flags.)
YAATTEN	09	757	N	605	Total audience at all young adult programs
F_YAATT	04	766	A	†	YAATT imputation flag. (See Appendix G for definitions of flags.)
OTHER ELECTRONIC INFORMATION					
GPTERMS	06	770	N	650	Internet computers used by general public

CNTY	20	156	A	707	County in which the outlet is physically located
PHONE	10	176	A	708	Telephone number of the outlet, in following format: area code/exchange/number (e.g., 7037315072) M = missing (unknown, not reported) -3 = Not applicable
C_OUT_TY	02	186	A	709	Outlet type CE—Central Library BR—Branch Library BS—Bookmobile(s) BM—Books-by-Mail Only
C_MSA	02	188	A	710	Metropolitan Status Code CC—Central City NC—Metropolitan Area, but not within central city limits NO—Not in a Metropolitan Area M—Missing (unknown, not reported)
SQ_FEET	08	190	N	711	Area in square feet of the public library outlet -1 = Missing -3 = Not applicable

**Appendix C—Record Layout for Public Library Outlet Data File, FY 2010
(puout10a.mdb and puout10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
F_SQ_FT	04	198	A	†	SQ_FEET imputation flag. (See Appendix G for definitions of flags.)
L_NUM_BM	02	202	N	712	Number of bookmobiles in the bookmobile outlet record (i.e., record with C_OUT_TY = BS)
F_BKMOB	04	204	A	†	L_NUM_BM imputation flag. (See Appendix G for definitions of flags.)
HOURS	04	208	N	713	Public Service Hours Per Year (actual hours)
F_HOURS	04	212	A	†	HOURS imputation flag. (See Appendix G for definitions of flags.)
WKS_OPEN	02	216	N	714	Number of Weeks a Library is Open (actual weeks)
F_WKSOPN	04	218	A	†	WKS_OPEN imputation flag. (See Appendix G for definitions of flags.)
YR_SUB	04	222	A	†	FSCS submission year of public library data in 4-digit format (YYYY)
STATSTRU	02	226	A	†	Structure Change Code 00—No change from last year 01—Existing Administrative Entity or Outlet absorbs another Administrative Entity or Outlet 02—Newly created Administrative Entity or Outlet 03—Closed 04—Move Outlet to a newly created Administrative Entity 05—Merge two or more Administrative Entities or Outlets to form a new Administrative Entity or Outlet 06—(reserved) 07—(reserved) 08—Restored a closed Administrative Entity or Outlet record 09—Restored an incorrectly deleted Administrative Entity or Outlet 10—Delete an incorrect record 11—Outlet moved to a different previously existing Administrative Entity 12—(reserved) 13—Add an existing Administrative Entity or Outlet not previously reported 22—Future Administrative Entity FSCS ID Request 23—Temporary Closure 24—Restore/Undo Was a 23 (Reopen a Temporarily Closed Administrative Entity) (Note: This code records structure changes to administrative entities and outlets, and is included on the Public Library Data File and the Public Library Outlet File. Structure changes include action
STATNAME	02	228	A	702A	Name Change Code 00—No change from last year 06—Official name change 14—Minor name change
STATADDR	02	230	A	703A	Address Change Code

**Appendix C—Record Layout for Public Library Outlet Data File, FY 2010
(puout10a.mdb and puout10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
					00—No change from last year 07—Moved to a new location 15—Minor address change
LONGITUD	11	232	N	†	Longitude. This field consists of a negative sign, three integers and six decimal places, with an explicit decimal point. 0.000000 - Missing
LATITUDE	09	243	N	†	Latitude. This field consists of two integers and six decimal places, with an explicit decimal point. 0.000000 - Missing
FIPSST	02	252	A	†	Two-digit American National Standards Institute (ANSI) State Code (assigned based on the physical location of the outlet). (See Appendix D for list of State Codes.) 00 - Missing
FIPSCO	03	254	A	†	Three-digit ANSI County Code (assigned based on the physical location of the outlet) 000 - Missing
FIPSPLAC	05	257	A	†	Five-digit ANSI Place Code 00000 - Missing
CNTYPOP	08	262	N	†	County Population -1 = Missing
LOCALE	02	270	A	†	Urban-centric locale code. The geographic location in terms of the size of the community in which it is located and the proximity of that community to urban and metropolitan areas. .-Missing 11—City, Large: Territory inside an urbanized area and inside a principal city with population of 250,000 or more 12—City, Mid-size: Territory inside an urbanized area and inside a principal city with a population less than 250,000 and greater than or equal to 100,000 13—City, Small: Territory inside an urbanized area and inside a principal city with a population less than 100,000 21—Suburb, Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more 22—Suburb, Mid-size: Territory outside a principal city and inside an urbanized area with a population less than 250,000 and greater than or equal to 100,000 23—Suburb, Small: Territory outside a principal city and inside an urbanized area with a population less than 100,000 31—Town, Fringe: Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area 32—Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area 33—Town, Remote: Territory inside an urban cluster that is more than 35 miles from an urbanized area

**Appendix C—Record Layout for Public Library Outlet Data File, FY 2010
(puout10a.mdb and puout10a.txt)**

Variable name	Field length	Start position	Data type	Survey item	Description
					41—Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster
					42—Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less t
					43—Rural, Remote: Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster
CENTRACT	07	272	N	†	Census Tract. A small, relatively permanent statistical subdivision of a county or statistically equivalent entity delineated by local participants as part of the Census Bureau's Participant Statistical Areas Program. This field consists of four integers and two decimals, with an explicit decimal point. 0 - Missing
CENBLOCK	04	279	N	†	Census Block. An area bounded on all sides by visible features, such as streets, roads, streams, and railroads tracks, and by invisible boundaries, such as city, town, township, and county limits, property lines, and short, imaginary extensions of streets and roads (designated by the Census Bureau). 0 - Missing
CDCODE	02	283	A	†	Congressional District. ANSI code based on the location of the administrative entity/outlet. Legislatively defined subdivisions of the state for the purpose of electing representatives to the House of Representatives of the U.S. Congress. .-Missing
MAT_CENT	01	285	A	†	Match Centroid. The geographic level at which the address was matched. .-Missing 0—Matched the actual street of this location 4—The centroid of the 5-digit zip code + 4 area that the location falls within 2—The centroid of the 5-digit zip code + 2 area that the location falls within X—The centroid of the 5-digit zip code that the library or administrative entity is located in

N Numeric field.
A Alpha character field.
† Not applicable.

NOTE: The survey questionnaire is in Appendix F.

State Characteristics Data Element Definitions

Note: The items below are answered by the state library agency.

#	<u>Data Element Name</u>	<u>Data Element Definition</u>
100	Reporting Period Starting Date	<p>This is the earliest date (month and year) for a 12-month period that applies to the state's data being submitted to IMLS.</p> <p>Note: Reporting period means data for the fiscal year that ended in the previous calendar year. If data are collected for different local reporting periods, provide the earliest starting date.</p>
101	Reporting Period Ending Date	<p>This is the latest date (month and year) for a 12-month period that applies to the state's data being submitted to IMLS.</p> <p>Note: Reporting period means data for the fiscal year that ended in the previous calendar year. If data are collected for different local reporting periods, provide the latest ending date.</p>
102	State Total Population Estimate	<p>This is the most recent total population figure for your state that matches the local population figures that you are submitting to IMLS. The State Data Coordinator should obtain this figure annually from the State Data Center or other state sources.</p>
103	Total Unduplicated Population of Legal Service Areas	<p>This is the total unduplicated population of those areas in your state that receive library services. The population of unserved areas is not included in this figure.</p> <p>Note: A state's actual total population of legal service areas may be different from the total population of legal service areas as calculated by WebPLUS. This happens in states where there are overlaps in population of legal service areas served by individual libraries, resulting in the same population being counted twice in the WebPLUS calculation. For states that have no overlapping jurisdictions, this number will be identical to your state's total population of legal service areas as calculated by WebPLUS. For states that do have overlaps in population of legal service areas served by individual libraries, this number must be calculated separately.</p> <p>Use your state's most recent state population figures for jurisdictions in your state as the basis for calculating the total unduplicated population of legal service areas.</p>

Appendix F—Survey Questionnaire

Administrative Entity Data Element Definitions

Administrative Entity. (This is not a WebPLUS Data Element.) This is the agency that is legally established under local or state law to provide public library service to the population of a local jurisdiction. The administrative entity may have a single outlet, or it may have more than one outlet.

#	<u>Data Element Name</u>	<u>Data Element Definition</u>
150	FSCS ID (Automatic Display)	This is the identification code assigned by WebPLUS to the administrative entity.
151	LIB ID	This is the state-assigned identification code for the administrative entity.
152	Name	This is the legal name of the administrative entity. Note: Provide the name of the public library. Do not use acronyms. Do not abbreviate the name unless it exceeds the WebPLUS field length of 60 characters. Avoid abbreviations at the beginning of the name and do not punctuate abbreviations. (See Standard Abbreviations for WebPLUS in Appendix G, User's Guide.)
Street Address		
153	Street Address	This is the complete street address of the administrative entity. Note: Do not report a post office box or general delivery.
154	City (of street address)	This is the city or town in which the administrative entity is located.
155	ZIP Code (of street address)	This is the standard five-digit postal zip code for the street address of the administrative entity.
156	ZIP+4 (of street address)	This is the four-digit postal ZIP code extension for the street address of the administrative entity.
Mailing Address		
157	Mailing Address	This is the mailing address of the administrative entity.
158	City (of mailing address)	This is the city or town of the mailing address for the administrative entity.
159	ZIP Code (of mailing address)	This is the standard five-digit postal ZIP code for the mailing address of the administrative entity.
160	ZIP+4 (of mailing address)	This is the four-digit postal ZIP code extension for the mailing address of the administrative entity.
161	County of the Entity	This is the county in which the headquarters of the administrative entity is physically located.
162	Phone	This is the telephone number of the administrative entity, including area code. Note: Report telephone number without spacing or punctuation. If the

Appendix F—Survey Questionnaire

MJ—Multi-jurisdictional. An entity operated jointly by two or more units of local government under an intergovernmental agreement which creates a jointly appointed board or similar means of joint governance; to be distinguished from a library which contracts to serve other jurisdictions and from special library districts.

Note: Please put city/county combinations under 'CC', rather than under Multi-jurisdictional.

NL—Native American Tribal Government. An organized local government authorized and established to provide general government to residents of a Native American reservation.

Note: Include native Alaskan villages in this category.

NP—Non-profit Association or Agency. An entity privately controlled but meeting the statutory definition of a public library in a given state; includes association libraries.

SD—School District. An organized local entity providing public elementary, secondary, and/or higher education which, under state law, has sufficient administrative and fiscal autonomy to qualify as a separate government. Excludes "dependent public school systems" of county, municipal, township, or state governments.

OT—Other.

202 Administrative
Structure Code

This code identifies an autonomous library entity (administrative entity) that has its own governance and funding.

An administrative entity is the agency that is legally established under local or state law to provide public library service to the population of a local jurisdiction. The administrative entity may have a single outlet, or it may have more than one outlet.

Select one of the following:

MA—Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are separate. An administrative entity that serves the public directly with two or more service outlets, including some combination of one central library, branch(es), bookmobile(s), and/or books-by-mail only. The administrative offices are separate from the direct service outlets and do not provide direct library services.

MO—Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Not Separate. An administrative entity that serves the public directly with two or more service outlets, including some combination of one central library, branch(es), bookmobile(s), and/or books-by-mail only.

Appendix F—Survey Questionnaire

SO—Administrative Entity with a Single Direct Service Outlet. An administrative entity that serves the public directly with one central library, books-by-mail only, or one bookmobile.

203 FSCS Public Library Definition

Answer <Y>es or <N>o to the following question: “*Does this public library meet all the criteria of the FSCS public library definition?*”

A public library is an entity that is established under state enabling laws or regulations to serve a community, district, or region, and that provides at least the following:

1. An organized collection of printed or other library materials, or a combination thereof;
2. Paid staff;
3. An established schedule in which services of the staff are available to the public;
4. The facilities necessary to support such a collection, staff, and schedule; and
5. Is supported in whole or in part with public funds.

Note: If the library meets all of the requirements of this definition, respond with a <Y>es. If the library does not meet one or more of the requirements, respond with a <N>o.

204 Geographic Code

Choose from among the following types of readily available Census geography, one code that either exactly or most nearly describes the geographic area for which the public library has been established to offer services and from which (or on behalf of which) the library derives revenue, plus any areas served under contract for which the library is the primary service provider.

Note: The Population of Legal Service Area (data element #208) should be reflected in the geographic code selected. For further clarification of municipal government, county/parish, and school district, refer to definitions under Legal Basis Code (data element #201). For further clarification of metropolitan area, see Metropolitan Status Code “NC—Metropolitan Area, but Not Within Central City Limits” (data element #710—Outlet Data Element Definitions).

CI1—Municipal Government (city, town or village) (exactly)

CI2—Municipal Government (city, town or

Appendix F—Survey Questionnaire

village) (most nearly)
 CO1—County/Parish (exactly)
 CO2—County/Parish (most nearly)
 MA1—Metropolitan Area (exactly)
 MA2—Metropolitan Area (most nearly)
 MC1—Multi-County (exactly)
 MC2—Multi-County (most nearly)
 SD1—School District (exactly)
 SD2—School District (most nearly)
 OTH—Other

- | | | |
|-----|--------------------------------------|--|
| 205 | Legal Service Area Boundary Change | <p>Answer <Y>es or <N>o to the following question: “<i>Did the administrative entity’s legal service area boundaries change since last year?</i>”</p> <p>Note: Changes are likely to result, for example, when a municipality annexes land, when one municipality in a county becomes either an independent city or its own county necessitating its exclusion from the first county’s geography, or when an administrative entity contracts to provide public library service for some additional geographic area other than the geographic area for which it was established (e.g., a municipal library contracts to serve county residents).</p> |
| 206 | Reporting Period Starting Date | <p>This is the starting date (month, day, and year) for a 12-month period that applies to the administrative entity’s data being submitted to IMLS.</p> <p>Note: Reporting period means data for the fiscal year that ended in the previous calendar year.</p> |
| 207 | Reporting Period Ending Date | <p>This is the ending date (month, day, and year) for a 12-month period that applies to the administrative entity’s data being submitted to IMLS.</p> <p>Note: Reporting period means data for the fiscal year that ended in the previous calendar year.</p> |
| 208 | Population of the Legal Service Area | <p>The number of people in the geographic area for which a public library has been established to offer services and from which (or on behalf of which) the library derives revenue, plus any areas served under contract for which the library is the primary service provider.</p> <p>Note: The determination of this population figure shall be the responsibility of the state library agency. This population figure should be based on the most recent state population figures for jurisdictions in your state available from the State Data Center. The State Data Coordinator should obtain these figures annually from the State Data Center or other state sources.</p> |
| 209 | Number of Central Libraries | <p>This is one type of single outlet library (SO) or the library, which is the operational center of a multiple-outlet library (MO or MA). Usually all processing is centralized here and the principal collections are housed here. Synonymous with</p> |

Appendix F—Survey Questionnaire

main library.

Note: Each administrative entity may report either no central library or one central library. No administrative entity may report more than one central library. In the administrative entity file, this simply means reporting “0” or “1” for central library. Where two or more libraries are considered “centrals” for state or local purposes, one central library and one or more branch libraries should be reported to FSCS. If you wish to identify a central library in the outlet file, identify the library with the largest collection as the central library for FSCS purposes, and report all others as branches. Where there are several co-equal outlets and no principal collection, report all such outlets as branches, not central libraries.

- 210 Number of Branch Libraries A branch library is an auxiliary unit of an administrative entity which has at least all of the following:
1. Separate quarters;
 2. An organized collection of library materials;
 3. Paid staff; and
 4. Regularly scheduled hours for being open to the public.
- 211 Number of Bookmobiles A bookmobile is a traveling branch library. It consists of at least all of the following:
1. A truck or van that carries an organized collection of library materials;
 2. Paid staff; and
 3. Regularly scheduled hours (bookmobile stops) for being open to the public.
- Note: Count the number of vehicles in use, not the number of stops the vehicle makes.

PAID STAFF (FULL-TIME EQUIVALENT)

Report figures as of the last day of the fiscal year. Include all positions funded in the library's budget whether those positions are filled or not. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment (FTE). For example, 60 hours per week of part-time work by employees in a staff category divided by the 40-hour measure equals 1.50 FTEs.

- 250 ALA-MLS Librarians with master's degrees from programs of library and information studies accredited by the American Library Association.
- 251 Total Librarians Persons with the title of librarian who do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect. This data element also includes ALA-MLS (data element #250).

Appendix F—Survey Questionnaire

- 252 All Other Paid Staff This includes all other FTE employees paid from the reporting unit budget, including plant operations, security, and maintenance staff.
- 253 Total Paid Employees This is the sum of Total Librarians and All Other Paid Staff (data elements #251 and #252).

OPERATING REVENUE

Report revenue used for operating expenditures as defined below. Include federal, state, local, or other grants. DO NOT include revenue for major capital expenditures, contributions to endowments, revenue passed through to another agency (e.g., fines), or funds unspent in the previous fiscal year (e.g., carryover). (Funds transferred from one public library to another public library should be reported by only one of the public libraries. The State Data Coordinator shall determine which library will report these funds.)

- 300 Local Government Revenue This includes all local government funds designated by the community, district, or region and available for expenditure by the public library. Do not include the value of any contributed or in-kind services or the value of any gifts and donations, library fines, fees, or grants.
- Do not include state, federal, and other funds passed through local government for library use. Report these funds with state government revenue or federal government revenue, as appropriate.
- 301 State Government Revenue These are all funds distributed to public libraries by state government for expenditure by the public libraries, except for federal money distributed by the state. This includes funds from such sources as penal fines, license fees, and mineral rights.
- Note: If operating revenue from consolidated taxes is the result of state legislation, the revenue should be reported under state revenue (even though the revenue may be from multiple sources).
- 302 Federal Government Revenue This includes all federal government funds distributed to public libraries for expenditure by the public libraries, including federal money distributed by the state.
- 303 Other Operating Revenue This is all operating revenue other than that reported under local, state, and federal (data elements #300, #301, and #302). Include, for example, monetary gifts and donations received in the current year, interest, library fines, fees for library services, or grants. Do not include the value of any contributed or in-kind services or the value of any non-monetary gifts and donations.
- 304 Total Operating Revenue This is the sum of Local Government Revenue, State Government Revenue, Federal Government Revenue, and Other Operating Revenue (data elements #300 through #303).

Appendix F—Survey Questionnaire

OPERATING EXPENDITURES

Operating expenditures are the current and recurrent costs necessary to support the provision of library services. Significant costs, especially benefits and salaries, that are paid by other taxing agencies (government agencies with the authority to levy taxes) "on behalf of" the library may be included if the information is available to the reporting agency. Only such funds that are supported by expenditure documents (such as invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Do not report the value of free items as expenditures. Do not report estimated costs as expenditures. Do not report capital expenditures under this category.

Staff Expenditures

- | | | |
|-----|--------------------------------|---|
| 350 | Salaries & Wages Expenditures | This includes salaries and wages for all library staff (including plant operations, security, and maintenance staff) for the fiscal year. Include salaries and wages before deductions but exclude employee benefits. |
| 351 | Employee Benefits Expenditures | These are the benefits outside of salaries and wages paid and accruing to employees (including plant operations, security, and maintenance staff), regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts for direct paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workmen's compensation, tuition, and housing benefits. |
| 352 | Total Staff Expenditures | This is the sum of Salaries & Wages Expenditures and Employee Benefits Expenditures (data elements #350 and #351). |

Collection Expenditures

This includes all operating expenditures from the library budget for all materials in print, microform, electronic, and other formats considered part of the collection, whether purchased, leased, or licensed. Exclude charges or fees for interlibrary loans and expenditures for document delivery.

- | | | |
|-----|-----------------------------------|--|
| 353 | Print Materials Expenditures | Report all operating expenditures for the following print materials: books, serial back files, current serial subscriptions, government documents, and any other print acquisitions. |
| 354 | Electronic Materials Expenditures | Report all operating expenditures for electronic (digital) materials. Types of electronic materials include e-books, e-serials (including journals), government documents, databases (including locally mounted, full text or not), electronic files, reference tools, scores, maps, or pictures in electronic or digital format, including materials digitized by the library. Electronic materials can be distributed on magnetic tape, diskettes, computer software, CD-ROM, or other portable digital carrier, and can be accessed via a computer, via access to the Internet, or by using an e-book reader. Include expenditures for materials held locally and for remote materials for which permanent or temporary access rights have been acquired. Include expenditures for database |

Appendix F—Survey Questionnaire

licenses. [Note: Based on ISO 2789 definition.]

Note: Expenditures for computer software used to support library operations or to link to external networks, including the Internet, are reported under Other Operating Expenditures (data element #357).

355	Other Materials Expenditures	Report all operating expenditures for other materials, such as microform, audio, video, DVD, and materials in new formats.
356	Total Collection Expenditures	This is the sum of Print Materials Expenditures, Electronic Materials Expenditures, and Other Materials Expenditures (data elements #353, #354, and #355).
357	Other Operating Expenditures	This includes all expenditures other than those reported for Total Staff Expenditures (data element #352) and Total Collection Expenditures (data element #356). Note: Include expenses such as binding, supplies, repair or replacement of existing furnishings and equipment; and costs of computer hardware and software used to support library operations or to link to external networks, including the Internet. Report contracts for services, such as costs of operating and maintaining physical facilities, and fees paid to a consultant, auditor, architect, attorney, etc.
358	Total Operating Expenditures	This is the sum of Total Staff Expenditures, Total Collection Expenditures, and Other Operating Expenditures (data elements #352, #356, and #357).

CAPITAL REVENUE

Report all revenue to be used for major capital expenditures, by source of revenue. Include funds received for (a) site acquisition; (b) new buildings; (c) additions to or renovation of library buildings; (d) furnishings, equipment, and initial collections (print, non-print, and electronic) for new buildings, building additions, or building renovations; (e) computer hardware and software used to support library operations, to link to networks, or to run information products; (f) new vehicles; and (g) other one-time major projects. Exclude revenue to be used for replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation. Exclude income passed through to another agency (e.g., fines), or funds unspent in the previous fiscal year (e.g., carryover). Funds transferred from one public library to another public library should be reported by only one of the public libraries. Report federal, state, local, and other revenue to be used for major capital expenditures in the following categories:

400	Local Government Capital Revenue	Report all governmental funds designated by the community, district, or region and available to the public library for the purpose of major capital expenditures, except for state and/or federal money distributed by the local government.
401	State Government Capital Revenue	Report all funds distributed to public libraries by state government for expenditure by the public libraries for the purpose of major capital expenditures, except for federal money distributed by the state.

Appendix F—Survey Questionnaire

402	Federal Government Capital Revenue	Report federal governmental funds, including federal funds distributed by the state or locality, and grants and aid received by the library for the purpose of major capital expenditures.
403	Other Capital Revenue	Report private (non-governmental funds), including grants received by the library for the purpose of major capital expenditures.
404	Total Capital Revenue	This is the sum of Local Government Capital Revenue, State Government Capital Revenue, Federal Government Capital Revenue, and Other Capital Revenue (data elements #400 through #403).

Note: The amounts reported for Total Capital Revenue and Total Capital Expenditures are not expected to be equal.

CAPITAL EXPENDITURES

405	Total Capital Expenditures	Report major capital expenditures (the acquisition of or additions to fixed assets). Examples include expenditures for (a) site acquisitions; (b) new buildings; (c) additions to or renovation of library buildings; (d) furnishings, equipment, and initial book stock for new buildings, building additions, or building renovations; (e) library automation systems; (f) new vehicles; and (g) other one-time major projects. Include federal, state, local, or other revenue used for major capital expenditures. Only funds that are supported by expenditure documents (e.g., invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Estimated costs are not included. Exclude expenditures for replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation. Exclude contributions to endowments, or revenue passed through to another agency (e.g., fines). Funds transferred from one public library to another public library should be reported by only one of the public libraries.
-----	----------------------------	---

LIBRARY COLLECTION

This section of the survey collects data on selected types of materials. It does not cover all materials (i.e., microform, scores, maps, and pictures) for which expenditures are reported under Print Materials Expenditures, Electronic Materials Expenditures, and Other Materials Expenditures (data elements #353, #354, and #355). Under this category report only items the library has acquired as part of the collection and catalogued, whether purchased, leased, licensed, or donated as gifts.

450	Print Materials	Report a single figure that includes both of the following: <ol style="list-style-type: none">1. Books in print. Books are non-serial printed publications (including music and maps) that are bound in hard or soft covers, or in loose-leaf format. Include non-serial government documents. Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Books packaged together as a unit (e.g., a 2-volume set) and checked out as a unit are counted as one physical unit.
-----	-----------------	---

Appendix F—Survey Questionnaire

2. Serial back files in print. Serials are publications issued in successive parts, usually at regular intervals, that are intended to be continued indefinitely. Serials include periodicals (magazines); newspapers; annuals (reports, yearbooks, etc.); journals, memoirs, proceedings, and transactions of societies; and numbered monographic series. Government documents and reference tools are often issued as serials. Except for the current volume, count unbound serials as a volume when the library has at least half of the issues in a publisher's volume. Report the number of physical units, including duplicates. For smaller libraries, if volume data are not available, count the number of titles. Serials packaged together as a unit (e.g., a 2-volume serial monograph) and checked out as a unit are counted as one physical unit.

451 Electronic Books (E-Books)

E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book (monograph). Include non-serial government documents. E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time. Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of physical or electronic units, including duplicates, for all outlets. For smaller libraries, if volume data are not available, the number of titles may be counted. E-books packaged together as a unit (e.g., multiple titles on a single e-book reader) and checked out as a unit are counted as one unit.

Note: Under this category report only items the library has selected as part of the collection and made accessible through the library's Online Public Access Catalog (OPAC).

452 Audio – physical units*

These are materials circulated in a fixed, physical format on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically, electronically, or both. Include records, audiocassettes, audio cartridges, audio discs (including audio-CD-ROMs), audio-reels, talking books, and other sound recordings stored in a fixed, physical format. Do not include downloadable electronic audio files.

Report the number of units, including duplicates. Items packaged together as a unit (e.g. two audiocassettes for one recorded book) and checked out as a unit are counted as one physical unit.

453 Audio – downloadable titles*

These are downloadable electronic files on which sounds (only) are stored (recorded) and that can be reproduced (played back) electronically.

Report the number of titles. Report only items the library has

Appendix F—Survey Questionnaire

selected as part of the collection and made accessible through the library's Online Public Access Catalog (OPAC) or through a physical library catalog.

454 Video – physical units* These are materials circulated in a fixed, physical format on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or computer monitor. Video formats may include tape, DVD and CD-ROM. Do not include downloadable electronic video files.

Report the number of units, including duplicates. Items packaged together as a unit (e.g. two audiocassettes for one recorded book) and checked out as a unit are counted as one physical unit.

455 Video – downloadable titles* These are downloadable electronic files on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver, computer monitor or video-enabled mobile device.

Report the number of titles. Report only items the library has selected as part of the collection and made accessible through the library's Online Public Access Catalog (OPAC) or through a physical library catalog.

Licensed Databases

Report the number of licensed databases (including locally mounted or remote, full-text or not) for which temporary or permanent access rights have been acquired through payment by the library, or by formal agreement with the State Library or a cooperative agreement within the state or region. A database is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts) with a common user interface and software for the retrieval and manipulation of the data.

Note: The data or records are usually collected with a particular intent and relate to a defined topic. A database may be issued on CD-ROM, diskette, or other direct access method, or as a computer file accessed via dial-up methods or via the Internet. Each database is counted individually even if access to several databases is supported through the same vendor interface.

Report the number of licensed databases acquired through payment or formal agreement, by source of access:

456 Local

457 State (state government
or state library)

458 Other cooperative
agreements (or consortia)
within state or region

459 Total Licensed
Databases This is the sum of Local, State, and Other licensed databases (data elements #456 through #458).

Appendix F—Survey Questionnaire

Current Print Serial Subscriptions

Current serial subscriptions are arrangements by which, in return for a sum paid in advance, serials are provided for a specified number of issues. Include current serial subscriptions in print.

- 460 Current Print Serial Subscriptions Report the number of current print serial subscriptions, including duplicates, for all outlets. Examples of serials are periodicals (magazines), newspapers, annuals, some government documents, some reference tools, and numbered monographic series.

SERVICES

- 500 Public Service Hours Per Year This is the sum of annual public service hours for outlets.
- Note: Include the hours open for public service for Centrals (data element #209), Branches (data element #210), Bookmobiles (data element #211), and Books-by-Mail Only. For each bookmobile, count only the hours during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the hours that the outlet is staffed for service. Minor variations in scheduled public service hours need not be included, however, extensive hours closed to the public due to natural disasters or other events should be excluded even if the staff is scheduled to work.
- 501 Library Visits This is the total number of persons entering the library for whatever purpose during the year.
- Note: If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A “typical week” is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).
- 502 Reference Transactions A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. It includes information and referral services. Information sources include printed and non-printed materials, machine-readable databases, catalogs and other holdings records, and, through communication or referral, other libraries and institutions and people inside and outside the library. The request may come in person, by phone, by fax, or by mail, electronic mail, or through live or networked electronic reference service from an adult, a young adult, or a child.

Do not count directional transactions or questions of rules or policies. Examples of directional transactions are “*Where are*

Appendix F—Survey Questionnaire

the children's books?" and "I'm looking for a book with the call number 811.2G." An example of a question of rules or policies is "Are you open until 9:00 tonight?"

Note: If an annual count of reference transactions is unavailable, determine an annual estimate by counting reference transactions during a typical week in October and multiply the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).

503 Number of Registered Borrowers A registered borrower is a library user who has applied for and received an identification number or card from the public library that has established conditions under which the user may borrow library materials and gain access to other library resources. (*Output Measures for Public Libraries, 2nd edition*).

Note: Files should have been purged within the past three (3) years.

550 Total Circulation The total annual circulation of all library materials of all types, including renewals.

Note: Count all materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library.

551 Circulation of Children's Materials The total annual circulation of all children's materials in all formats to all users, including renewals.

INTER-LIBRARY LOANS

552 Provided To These are library materials, or copies of the materials, provided by one autonomous library to another upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.

553 Received From These are library materials, or copies of the materials, received by one autonomous library from another upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.

LIBRARY PROGRAMS

600 Total Number of Library Programs A program is any planned event which introduces the group attending to any of the broad range of library services or activities or which directly provides information to participants. Programs may cover use of the library, library services, or

Appendix F—Survey Questionnaire

library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include film showings, lectures, story hours, literacy, English as a second language, citizenship classes, and book discussions.

Count all programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Exclude programs sponsored by other groups that use library facilities.

If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.

Note: Exclude library activities delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, resume writing assistance, homework assistance, and mentoring activities.

601 Number of Children's Programs*

A children's program is any planned event for which the primary audience is children and which introduces the group of children attending to any of the broad range of library services or activities for children or which directly provides information to participants. Children's programs may cover use of the library, library services, or library tours. Children's programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include story hours and summer reading events.

Count all children's programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include children's programs sponsored by other groups that use library facilities. If children's programs are offered as a series, count each program in the series. For example, a story hour offered once a week, 48 weeks a year, should be counted as 48 programs. Exclude library activities for children delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities. This figure is a subset of the Total Number of Library Programs (data element #600).

Note: The National Center for Education Statistics (NCES): *Children and Young Adults Defined (Services and Resources for Children and Young Adults in Public Libraries [August 1995, NCES 95357])* defines children as persons age 11 years and under.

602 Number of Young Adult Programs

A young adult program is any planned event for which the primary audience is young adult and which introduces the group of young adults attending to any of the broad range of library services or activities for young adults or which directly provides information to participants. Young adult programs may cover use of the library, library services, or library tours. Young adult programs may also provide cultural, recreational,

Appendix F—Survey Questionnaire

or educational information, often designed to meet a specific social need. Examples of these types of programs include book clubs and summer reading events.

Count all young adult programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include young adult programs sponsored by other groups that use library facilities. If young adult programs are offered as a series, count each program in the series. For example, a book club offered every two weeks, 24 weeks a year, should be counted as 24 programs. Exclude library activities for young adults delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities. This figure is a subset of the Total Number of Library Programs (data element #600).

Note: Young Adult age is defined as 12 through 18 years and includes 18 year olds. Click on the following link to view information:

- The [Young Adult Services Association](#) (YASLA) defines young adults as age 12 through 18.

603 Total Attendance at Library Programs

This is a total count of the audience at all library programs during the reporting period. (See Total Number of Library Programs, data element #600, for the definition of a library program.)

604 Children's Program Attendance

The count of the audience at all programs for which the primary audience is children 11 years and under. Include adults who attend programs intended primarily for children.

Note: Do not count attendance at library activities for children that are delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities. (See Number of Children's Programs, data element #601, for the definition of a children's library program.)

605 Young Adult Program Attendance

The count of the audience at all programs for which the primary audience is young adults 12 to 18 years and includes 18 year olds. Include adults* who attend programs intended primarily for young adults.

Note: Do not count attendance at library activities for young adults that are delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

*Please count all patrons that attend the young adult programs regardless of age.

(See Number of Young Adult Programs, data element #602, for the definition of a young adult library program.)

Appendix F—Survey Questionnaire

OTHER ELECTRONIC INFORMATION

- | | | |
|-----|---|--|
| 650 | Number of Internet Computers Used by General Public | Report the number of the library's Internet computers [personal computers (PCs) and laptops], whether purchased, leased, or donated, used by the general public in the library. |
| 651 | Number of Users of Public Internet Computers Per Year | Report the total number of individuals that have used Internet computers in the library during the last year. If the computer is used for multiple purposes (Internet access, word-processing, OPAC, etc.) and Internet users cannot be isolated, report all usage. A typical week or other reliable estimate may be used to determine the annual number. Sign-up forms or Web-log tracking software also may provide a reliable count of users. |

Note: The number of users may be counted manually, using registration logs. Count each user that uses public internet computers, regardless of the amount of time spent on the computer. A user who uses the library's public internet computer(s) three times a year would count as three customers. Software such as "Historian" can also be used to track the number of users at each public internet computer. If the data element is collected as a weekly figure, multiply that figure by 52 to annualize it.

* Revised or new data element name and/or definition

Appendix F—Survey Questionnaire

Outlet Data Element Definitions

#	<u>Data Element Name</u>	<u>Data Element Definition</u>
700	FSCS ID and SEQ (Automatic Display)	This is the identification code assigned by WebPLUS. Outlets are assigned the same FSCS ID as the administrative entity to which they belong, with a unique three-digit suffix added to distinguish each outlet.
701	LIB ID (Optional)	This is the state-assigned identification code for the outlet.
702	Name	<p>This is the legal name of the outlet.</p> <p>Note: Provide the legal name of the outlet. Do not use acronyms. Do not abbreviate the name unless it exceeds the WebPLUS field length of 60 characters. Avoid abbreviations at the beginning of the name and do not punctuate abbreviations. (See Standard Abbreviations for WebPLUS in Appendix G, User's Guide.)</p>
703	Street Address	<p>This is the complete street address of the outlet.</p> <p>Note: Do not report a post office box or general delivery. For a bookmobile that operates from an administrative entity, branch, or central library, report the address of the administrative entity, branch or central library from which it operates. For a bookmobile that is itself the administrative entity, report the address where the bookmobile is parked at night.</p>
704	City	This is the city or town in which the outlet is located.
705	ZIP Code	This is the standard five-digit postal ZIP code for the street address of the outlet.
706	ZIP+4	This is the four-digit postal ZIP code extension for the street address of the outlet.
707	County of the Outlet	This is the county in which the outlet is physically located.
708	Phone	<p>This is the telephone number of the outlet, including area code.</p> <p>Note: Report telephone number without spacing or punctuation. If the outlet has no phone, enter “-3” (for Not Applicable).</p>
709	Outlet Type Code	<p>An outlet is a unit of an administrative entity that provides direct public library service.</p> <p>Select one of the following:</p> <p>BM—Books-by-Mail Only. A direct mail order service which provides books and other library materials. Books-by-mail typically serves rural residents, the disabled, the homebound, and others without access to another type of public library</p>

Appendix F—Survey Questionnaire

outlet. Requests for materials are usually received by mail and by telephone only. Only books-by-mail services that are housed separately from any other type of direct public service outlet (that is, central library, branches, or bookmobiles) should be coded here.

BR—Branch Library. A branch library is an auxiliary unit of an administrative entity which has at least all of the following:

1. Separate quarters;
2. An organized collection of library materials;
3. Paid staff; and
4. Regularly scheduled hours for being open to the public.

BS—Bookmobile(s). A bookmobile is a traveling branch library. It consists of at least all of the following:

1. A truck or van that carries an organized collection of library materials;
2. A paid staff; and
3. Regularly scheduled hours (bookmobile stops) for being open to the public.

Note: A separate outlet record may be created for each bookmobile. You may wish to create separate outlet records for individual bookmobiles if (1) they have different addresses and/or (2) they have different Metropolitan Status Codes (see outlet data element #710). Alternatively, a bookmobile outlet record may include more than one bookmobile.

CE—Central Library. This is one type of single outlet library (SO) or the library which is the operational center of a multiple-outlet library (MO or MA). Usually all processing is centralized here and the principal collections are housed here. Synonymous with main library.

Note: Each administrative entity may report either no central library or one central library. No administrative entity may report more than one central library. If you wish to identify a central library in the outlet file, identify the library with the largest collection as the central library for FSCS purposes, and report all others as branches. Where there are several co-equal outlets and no principal collection, report all such outlets as branches, not central libraries.

710 Metropolitan Status Code

Select one of the following. Bookmobiles should report the code which best describes their primary service area.

Note: Contact the State Data Center for specific information about Metropolitan Areas in your state.

CC—Central City. The largest central city and, in some cases, up to two additional central cities are included in the title of the Metropolitan Area; there also are central cities that are not included in a Metropolitan Area title. A Metropolitan Area central city does not include any part of that city that extends outside the Metropolitan Area boundary.

Appendix F—Survey Questionnaire

NC—Metropolitan Area, but Not Within Central City Limits. A large population nucleus, together with adjacent communities that have a high degree of economic and social integration with that nucleus. Some Metropolitan Areas are defined around two or more nuclei. Each Metropolitan Area must contain a place with a minimum population of 50,000 or a Census Bureau-defined urbanized area and a total Metropolitan Area population of at least 100,000 (75,000 in New England). A Metropolitan Area comprises one or more central counties. (Independent cities are considered county equivalents.) A Metropolitan Area may also include one or more outlying counties that have close economic and social relationships with the central county. An outlying county must have a specified level of commuting to the central counties and also must meet certain standards regarding metropolitan character, such as population density, urban population, and population growth. In New England, Metropolitan Areas are composed of cities and towns rather than whole counties.

NO—Not in a Metropolitan Area.

- | | | |
|-----|---|---|
| 711 | Square Footage of Outlet | Provide the area, in square feet, of the public library outlet (central library or branch). Report the total area in square feet for each library outlet (central library or branch) separately. This is the area on all floors enclosed by the outer walls of the library outlet. Include all areas occupied by the library outlet, including those areas off-limits to the public. Include any areas shared with another agency or agencies if the outlet has use of that area. |
| 712 | Number of Bookmobiles in the Bookmobile Outlet Record | <p>The number of bookmobiles in the bookmobile outlet record.</p> <p>Note: A bookmobile outlet record may include one or more bookmobiles. Complete this data element only if the outlet record is of the type BS—Bookmobile(s) (see outlet data element #709). A bookmobile is a traveling branch library. It consists of at least all of the following:</p> <ol style="list-style-type: none"> 1. A truck or van that carries an organized collection of library materials; 2. A paid staff; and 3. Regularly scheduled hours (bookmobile stops) for being open to the public. Count vehicles in use, not the number of stops the vehicle makes. |
| 713 | Public Service Hours Per Year (actual hours)* | <p>This is the number of annual public service hours for outlets (reported individually by central, branch, bookmobile and Books-by-Mail Only)</p> <p>Note: Include the actual hours open for public service for centrals (data element #209), branches (data element #210), and bookmobiles (data element #211), and Books-by-Mail Only. For each bookmobile, count only the hours during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the hours</p> |

Appendix F—Survey Questionnaire

that the outlet is staffed for service. Minor variations in public service hours need not be included. Extensive hours closed to the public due to natural disasters or other events should be excluded from the count.

714 Number of Weeks a Library is Open (actual weeks)*

This is the number of weeks during the year that an outlet was open to the public.

Note: Include the number of weeks open for public service for Centrals (data element #209), Branches (data element #210), Bookmobiles (data element #211), and Books-by-Mail Only. For each bookmobile, count only the weeks during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the weeks that the outlet is staffed for service. The count should be based on the number of weeks that a library outlet was open for half or more of its scheduled service hours. Extensive weeks closed to the public due to natural disasters or other events should be excluded from the count. **Do not** calculate based on total number of service hours per year at the outlet level. For example, by dividing total hours by the average hours open per week. Round to the nearest whole number of weeks. If the library was open half or more of its scheduled hours in a given week, round up to the next week. If the library was open less than half of its scheduled hours, round down.

* Revised or new data element name and/or definition

Appendix G – Imputation Flags and Definitions for Public Library Data Files

Note: See the Imputation section for more details on the imputation methodology.

R_10	The variable was not imputed.
IG09, IG08, IG07, IG06	Prior year data with cell mean growth rate, using the most current data from (2009, 2008, 2007, or 2006)
IQ10	Adjusted cell mean (the ratio of population of legal service area to the cell mean population of legal service area was used to adjust the imputed value)
IJ10	Unadjusted cell mean
IK09, IK08, IK07, IK06	Prior year ratio to another item, using the most current data from (2009, 2008, 2007, or 2006)
ID10	Cell median ratio to another item
IP09, IP08, IP07, IP06	Data carried forward, using the most current data that are available from (2009, 2008, 2007, or 2006)
IM10	Unadjusted cell median
IT10	Value obtained by relationship of total to detail item
IB10	Raking of detail items to match totals
IS10	Special imputation procedures
IY10	Consistency check derived value
U_10	New item or outlying areas- no imputation done
H_10	Data were suppressed (to protect confidentiality of respondents) (public-use file only)

State-level Flags:

R_10	All detail comprising total is reported data
IF10	Some detail comprising total is imputed data
IA10	All detail comprising total is imputed data
U_10	New item or outlying areas – no imputation done
H_10	Total is suppressed (public-use file only)

Appendix H—Item Response Rate and Total Quantity Response Rate by State by Item

Only displaying response rates less than 95.0 percent

Item Response Rate—The ratio of the number of eligible units responding to an item to the number of responding units eligible to have responded to the item.

Total Quantity Response Rate(TQRR)—The ratio of total quantity of data from responding units to the total estimated quantity for all units eligible for tabulation (includes imputed data). The TQRR measures the percentage of the total quantity of a given variable that was actually reported by respondents, as opposed to being imputed during data processing.

Item Response Rate—The ratio of the number of eligible units responding to an item to the number of responding units eligible to have responded to the item.

Total Quantity Response Rate(TQRR)—The ratio of total quantity of data from responding units to the total estimated quantity for all units eligible for tabulation (includes imputed data). The TQRR measures the percentage of the total quantity of a given variable that was actually reported by respondents, as opposed to being imputed during data processing.

STRUCTURE CHANGE CODE

STATSTRU	Frequency	Percent	Cumulative Frequency	Cumulative Percent
00—No change from last year	17,273	98.8	17,273	98.8
01—Existing Administrative Entity or Outlet absorbs another Administrative Entity or Outlet	3	#	17,276	98.8
02—Newly created Administrative Entity or Outlet	117	0.7	17,393	99.4
04—Move Outlet to a newly created Administrative Entity	5	#	17,398	99.5
08—Restored a closed Administrative Entity or Outlet record	18	0.1	17,416	99.6
09—Restored an incorrectly deleted Administrative Entity or Outlet	4	#	17,420	99.6
11—Outlet moved to a different previously existing Administrative Entity	19	0.1	17,439	99.7
13—Add an existing Administrative Entity or Outlet not previously reported	49	0.3	17,488	100.0
24—Restore/Undo Was a 23 (Reopen a Temporarily Closed Administrative Entity)	2	#	17,490	100.0

NAME CHANGE CODE

STATNAME	Frequency	Percent	Cumulative Frequency	Cumulative Percent
00—No change from last year	17,129	97.9	17,129	97.9
06—Official name change	142	0.8	17,271	98.7
14—Minor name change	219	1.3	17,490	100.0

ADDRESS CHANGE CODE

STATADDR	Frequency	Percent	Cumulative Frequency	Cumulative Percent
00—No change from last year	16,792	96.0	16,792	96.0
07—Moved to a new location	224	1.3	17,016	97.3
15—Minor address change	474	2.7	17,490	100.0

Rounds to zero.

Appendix M—Frequencies and Distributions of Selected Variables on Public Library Outlet Data File

LOCALE	Frequency	Percent	Cumulative Frequency	Cumulative Percent
.–Missing	8	#	8	#
11–City, Large: Territory inside an urbanized area and inside a principal city with population of 250,000 or more	1,470	8.4	1,478	8.5
12–City, Mid-size: Territory inside an urbanized area and inside a principal city with a population less than 250,000 and greater than or equal to 100,000	679	3.9	2,157	12.3
13–City, Small: Territory inside an urbanized area and inside a principal city with a population less than 100,000	840	4.8	2,997	17.1
21–Suburb, Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more	3,277	18.7	6,274	35.9
22–Suburb, Mid-size: Territory outside a principal city and inside an urbanized area with a population less than 250,000 and greater than or equal to 100,000	489	2.8	6,763	38.7
23–Suburb, Small: Territory outside a principal city and inside an urbanized area with a population less than 100,000	304	1.7	7,067	40.4
31–Town, Fringe: Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area	553	3.2	7,620	43.6
32–Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area	1,840	10.5	9,460	54.1
33–Town, Remote: Territory inside an urban cluster that is more than 35 miles from an urbanized area	1,163	6.6	10,623	60.7
41–Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster	1,174	6.7	11,797	67.4
42–Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster	3,271	18.7	15,068	86.2
43–Rural, Remote: Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster	2,422	13.8	17,490	100.0

Rounds to zero.
