Texas	50	3.30	Georgia	50	0.44
West Virginia	51	3.21	Illinois	51	0.43

† Not applicable.

<sup>1</sup>Per capita is based on the total unduplicated population of legal service areas.

<sup>2</sup>Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

<sup>3</sup>The District of Columbia, although not a state, is included in the state rankings. Special care should be used in comparing its data to state data.

<sup>4</sup>Caution should be used in making comparisons with the state of Hawaii, as Hawaii reports only one public library for the entire state.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2011. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.

† Not applicable.

<sup>1</sup>Per 25,000 population is based on the total unduplicated population of legal service areas.

<sup>2</sup>Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

<sup>3</sup>The District of Columbia, although not a state, is included in the state rankings. Special care should be used in comparing its data to state data.

<sup>4</sup>Caution should be used in making comparisons with the state of Hawaii, as Hawaii reports only one public library for the entire state.

† Not applicable.

<sup>1</sup>Total staff expenditures include expenditures for salaries and wages and employee benefits. State rankings of employee benefits expenditures are not included in this report. Per capita is based on the total unduplicated population of legal service areas.

<sup>2</sup>Total includes the 50 states and the District of Columbia but excludes outlying areas and libraries that do not meet the FSCS Public Library Definition.

<sup>3</sup>The District of Columbia, although not a state, is included in the state rankings. Special care should be used in comparing its data to state data.

<sup>4</sup>Caution should be used in making comparisons with the state of Hawaii, as Hawaii reports only one public library for the entire state.

SOURCE: Institute of Museum and Library Services, Public Libraries Survey, Fiscal Year 2011. Data users who create their own estimates using data from this report should cite the Institute of Museum and Library Services as the source of the original data only. Although the data in this table come from a census of all public libraries and are not subject to sampling error, the census results may contain nonsampling error. Additional information on nonsampling error, response rates, and definitions may be found in Appendix B of the report for the Public Libraries Survey.
